**WELL, IT LOOKS LIKE A BUNCH OF YOU GOT ONE!** When we asked you to tell us how you acquired your Super NES we didn't expect the creative responses you sent in. Stay with it, fans. Your ingenuity will usually get you what you want. Here are a few ideas from creative, enterprising fans.

My moneymaking idea is simple. I'll sell my braces back to the orthodontist! Then I could buy all my friends and relatives a Super NES!

**Carla Barnes of Elba, AL:**

*Have you called them yet to see if they have a recycling program?*

I earned money to buy the Game Boy system by cutting grass when I was 12. At 13, I babysat to get the Super NES and it didn't take as long. Now I want to be able to get the CD-ROM accessory. I'll probably see if my Science teacher and I can work on inventing a MONEY TREE!

**Marvin Hood of Baltimore, MD:**

I houseit for people when they're on vacation, babysit and clean. Yuck!

**Kyle Curry of Decatur, IL:**

I worked hard at school all year and earned an average of 86%. Because of this high percentage, I didn't have to take final exams, so I sold my notes for cash. Of course I didn't get ALL of my Super NES money from my notes. I also work part time at a nearby hardware store. My notes helped a lot, though!

**Andre Lavergne of Saint Pierre, MB:**

My brother and I recycle newspapers and soda cans. We already have \$50.00 and a garbage can full of cans!

**Chris Reckart of Byron, CA:**

I'm only 12, but I'm working with my dad at the University of Montevallo, helping college students who don't know how to use computers. I work for \$1.00. Last year I was able to get the Game Boy with my earnings. This year it will be the Super NES. I plan to do this every year or get a high-paying job!

**Mikey Garza of Montevallo, AL:**

I managed to get a well-paying paper route. The first thing I bought with my money was a good pair of roller blades so I could go twice as fast and have fun, too. Now I have the Super NES. It worked for me, it should work for you, too!

**Rob Kent of Nepean, ON:**

I paint people's rooms for \$25.00, mow lawns for \$4.00, wash and wax cars for \$5.00 and recycle aluminum cans in my spare time, after doing homework.

**Michael Bellhorn of Fort Lauderdale, FL:**

I think this would be a good way to make money: Go around and knock on people's doors and ask for spare change. You could say, "Do you have any extra money that I could borrow to use to buy a Nintendo game, please, please, PLEASE!"

**Nick Fulton of Silver Spring, MD**

*Please note that the opinions and ideas sent in by readers are not necessarily the ones we at Nintendo Power have. It was a unique entry, though, Nick!*

## AMERICAN GLADIATORS CONTEST WINNER

**B**rian Grant, from Batavia, Ohio, was the Grand Prize winner in our Player's Poll Contest from last September. Brian's parents, Tim and Kathy and friend Terry Taylor, accompanied him on the four-day trip to the Los Angeles area. The group witnessed a live taping of the American Gladiators and Brian met the Gladiators backstage. It was interesting to see how a television program is taped. A great amount of preparation goes into just a small amount of actual film footage. Disneyland, Universal Studios and the Hard Rock Cafe were other major sightseeing stops on the excursion.

Brian got the chance to meet Zep. She was the audience's favorite Gladiator.

Brian, Viper and Laser...hungry 'out' backstage between the Gladiators events.

## ADVENTURE ISLAND: TAKE 3

Seems Master Higgins has absolutely no luck keeping his girlfriend safe. Hudson's third NES installment of *Adventure Island* sees his island sweetheart getting beamed up into an invading alien spacecraft. Master Higgins just cannot believe it! When is he ever going to get a break? The island realm has transformed since Master Higgins had his last adventure, but it's actually not too much different from what he's seen in previous rescue missions. A new friend, a Green Camptosau-

rus, as well as the four other prehistoric helpers, will be joining the island hero this time around.

# TRUSTY ISLAND FRIENDS

Five Dinosaurs, two weapons and one special item will help Higgins on his tumultuous journey. One great thing about the Item screen is that when you decide to Continue a game that has ended, you carry over all of the Dinosaurs and Items which you had accumulated in the previous game. This comes in very handy because it's difficult to build up enough Items to get you through every stage.

To call a Dino helper into action, either find a Egg hidden inside of an Egg or select a rescue Dino from your Item screen at the beginning of the level!

## RED CAMPTOSAURUS "Magma"

This is a quick Dino! Press and hold the B Button to get a burst of speed. The Red Camptosaur can shoot powerful sparks out of its mouth. It can also walk through lava for a short time.

## BLUE CAMPTOSAURUS "Taylor"

The Blue Camptosaur is fast and it shoots sparks out of its tail. It can turn around to face the fire. The Camptosaur turns around by itself to shoot.

## HAMMER

The basic weapon, Higgins can fire off two Hammers at the same time, but they're not very powerful.

## BOOMERANG

It's not a big deal that the Boomerang returns. Higgins can only throw one at a time. It's powerful, though.

## POWER CRYSTAL

The power of the Crystal allows Master Higgins to take one hit without any damage.

## ELASMOSAURUS "Classie"

Slow as it goes, but Classie is a fast underwater. If you know you're coming to an underwater stage, choose the Elasmosaurus.

## PTERANODON "Don-Don"

If you have a lot of gold, you should get them usually, all upon the Pteranodon will fly you where you need to go. Remember to watch your wings when you fly.

## TRIPETAURUS "Pokey"

The newest addition to the Dino tribe, this green friend is fairly swift of foot. He can quickly roll into a spinning ball to defeat various enemies and obstacles.

# STAGE I

Stage I will take Master Higgins from the sandy beaches of Coastal Clash to the barren wasteland of The Desolation. As with every stage in Adventure Island 3, a wide variety of settings will appear. Various types of Bonus areas can be found in each level. By entering them, Higgins can earn valuable prizes.

1-1

Starting off with *adversity* one, Master Higgins proceeds once again! Coastal Clash isn't much of a clash at all.

There aren't many enemies to deal with. Throw the Hammer to search for hidden Eggs.

Hidden Egg -> the key which lets Higgins into the secret area.

Collect the air current can be very tricky at first. Only enemies who breathe will react at the air current.

1-3

In the first half of the Oak Forest, Honey Girl will provide the power of invincibility. Pokey will also show up to give Higgins a lift if he breaks open the current Egg.

There is a hidden Egg near the end of the level which will take Master Higgins to a Secret level.

1-5

A second, more-challenging Coastal Clash will face Higgins in the fifth level of Stage I. A helpful Blue Campto will be aiding out in a *valuable* Egg, midway through the level.

Secret: The Mask from the Blue Campto will take our hero to which a Hammer work.

1-6

The Desolation features some barren terrain and some fishy, swift enemies. There is a hidden Egg at the top of the second hill.

Jump, slide up while avoiding at the top to find it.

The Hammer can break the egg. The egg will take our hero to the secret area.

SAND DEVIL

If you don't have a weapon when you enter the air of this boss, don't worry, there will be a Hammer waiting for Higgins. Run up the left slope and fire off a couple of bullets at the creature as you slide down. Repeat as necessary and avoid the fireballs.

# STAGE 2

Lush jungle regions dominate Stage 2. However, a remote island to the southwest appears to be snowed under. How unusual! One of the largest waterfalls known to mankind will be encountered in Stage 2. Its cascading torrents may be too much for the koin-clothed island hero. To the south, Higgins will be lost in the mist. The cloud cover of Misty Haze appears threatening, but Higgins isn't fazed... he must push on!

2-2

Here we go with the Coastal Clash again! Higgins is already very familiar with these types of surroundings. Interference from enemies will be minimal.

Looking east, activating the secret Egg you believe the flying will take Higgins to a bonus room. Pick up all of the Pear and here.

2-3

An Ice Cave in a tropical area? Is it true? First, so Higgins has to use caution and control to handle the slippery surfaces here. Jump in turn to change directions.

Find a Key, catch, when it's the chance. Not easy.

Higgins is in the icy, rocky to try the Snow in Stage 2.

2-6

The Cave Woods. Sounds familiar. Since this game is mostly left-to-right oriented, Higgins knows that he should proceed to the right. Don't worry about trying to jump to the upper ledges until the end of the level. The air is elevated.

The Spiders don't give Higgins too much trouble. It's no jumping and down and some of these don't. There may be hidden Eggs in places such as this.

**BUDDING  
BEHEMOTH**

This triple-headed boss is actually very peaceful looking... until it attacks! Alternately, each boss will open and spit out a bunch of poisonous leaves. Stay away from the open bud and toss a Hammer or Boomerang at it.

The bud will be under on a rock. Higgins has to be careful here.

That's how the boss can be defeated. Higgins has to be careful here.

NES

## STAGE 3

Stage 3 looks very similar to Stage 2 with the exception of the gigantic waterfall. An icy island appears to the southwest and a large, desolate desert area looms in the northeast. There are many wolves in the Oak Forest. They'll come out when Higgins passes by flowers.

A hidden Egg near the entrance of the Ice Cave will take Higgins to a Bonus area high in the clouds. Pick up a wealth of Items and earn a Bonus Power Crystal if you get every single one of them.

The Fire Demon at the top of the Bottomless Pit doesn't move fast, but the Embryo he spits out do jump free.

## STAGE 4

Higgins starts off Stage 4 with another Coastal Clash. He's been through this type of territory so much that he's becoming a real pro at recognizing spots where enemies and hidden Eggs may appear. A giant Pyramid draws Higgins toward it. He knows that he will have to journey there in order to get to the end. Speaking of the end, a huge sunken pirate ship is the hiding place for the Stage 4 Boss. A serious underwater battle awaits Higgins!

Higgins knows that when he passes the flower, the Wolf would come up from behind to attack him.

The Hammer's work mainly against the lead boss. Swim to the top when he is near the bottom.

Higgins almost has his last life! He's gotta watch out for those nasty spiked Squids, though.

## STAGE 5

"Wow! That must have been the biggest dinosaur ever," exclaims Master Higgins as he strolls up to Stage 5. Actually, it may be an illusion planted by the alien invaders to scare him off. What they don't know, however, is that Higgins will not stop. If there's someone in need, he'll be on hand to help. Never mind the danger. The skeletal boss will move from his upper perch to a lower perch. Nail him with anything that resembles an island weapon.

Stay back as far as possible when attacking.

# STAGE 6

Higgins thought the Ice Caves in the previous levels were cold. He hasn't seen anything yet! Stage 6 is full of icy surfaces. Use an "advance and retreat" attack pattern if an enemy appears to be in a position where Higgins won't be able to hit it with a weapon. This type of attack is also a safe bet to use against the boss at the end of Stage 6, too.

Use the "advance and retreat" attack pattern to hit enemies that are out of range. It may take some fancy footwork to cut them.

Naked Red Goodbye, Mr. Cobb! It's time to trust back to your skills.

# STAGE 7

"Oh, good. The weather is back to normal. It's getting warm again." Hig will start to feel the heat in Stage 7. Volcanos will begin erupting and spewing forth blasts of flame and volcanic rock. Higgins will be fired to a crisp if he comes in contact with the flames in the Fire Gorge. When Higgins reaches the Shaft of Darkness, he will be confronted with a choice. He can take the upper path or he can go down below through the watery depths.

Higgins will have to do some major jumping in Stage 7. Leap to avoid the fireballs and other strategically placed enemies.

Molten Butterfly? Nope! The boss is evil! Keep Higgins jumping from cloud to cloud to avoid coming in contact with the flying beast. Fire is evil!

# STAGE 8

The volcanos are erupting! Higgins had better act fast so he can rescue his girlfriend and get out of there. Because of the tremendous heat, the supply of fruit is shrinking. There won't be as much time for decision making. The aliens, astounded that Higgins made it this far, will be waiting!

# POWER BLADE

## NOVA'S BACK!

The Delta Foundation is trying to blackmail the government. They have created a line of near-perfect fighting cyborgs and are threatening to sell them to any foreign country willing to put up enough cash. The government isn't going to stand for this treachery. The Delta Foundation must be taken down! There's only one person who can accomplish this bold task—Special Agent Nova. After saving the Master Computer of New Earth in his first mission, Nova returned to his fighting instructors at Tatoo for more intensive training. Now he is much more adept at using his trusty blades. Nova has also learned to quickly slide under low obstacles and enemy fire. This one-man force is always up to new challenges. It's time to go after Delta!

NOVA'S NAME IS POWERFUL.

THEY'VE REASON, EAGLES ORCHESTRA  
STAY THE DEPTA. BIRTH OF  
DEFENSE. IN THE HONOR OF THE  
DELTA FOUNDATION.

# POWER SUITS

## POWER BLADE 2

### Newt Suit—Stage 1

Nova must find a special suit in each of the first four stages. He will have to defeat a Dragonwheel mini-boss to access each suit. Wearing a suit will give Nova special abilities.

The Newt Suit allows Nova to cling to and move along walls and ceilings. He's much faster on foot, but he'll have to grab on and move hand over hand at times.

#### Suggested Usage:

STAGE	AREA
1	05/07
1	07/07
1	Boss
2	08/08
3	01/07

### Wet Suit—Stage 2

Wearing the Wet Suit allows Nova to move very quickly underwater. If you have enough Energy in reserve, you should definitely use it!

#### Suggested Usage:

STAGE	AREA
2	05/08
2	Boss
4	02/07
4	03/07

### Rocket Suit—Stage 3

When Nova selects the Rocket Suit he dons a jet pack and can take to the skies! However, the skies aren't friendly. There are many enemies and obstacles there.

#### Suggested Usage:

STAGE	AREA
3	04/07
3	05/07
3	Boss
5	05/10

### Patriot Suit—Stage 4

The Patriot Suit is an engineering masterpiece. It absorbs enemy fire. Nova can use the suits as long as he has Energy available. Watch the meter!

#### Suggested Usage:

5	Boss
6	14/14

NES

# STAGE 1

Most games start off with an easy stage. Not this one! Nova is instantly thrown into the fray. Granted, Stage 1 is not as difficult as the later stages, but don't take it lightly! Nova may choose stages in any order, but tackling Stages 1 through 4 in order seems to be the best strategy. The first Stage of the Delta Foundation consists of seven different sub-sections. Nova can obtain the Newt Suit in a room in Area 05/07.

Press the Start Button to enter a stage.

Narrow gaps and moving platforms can be tricky.

## AREA MAP

## AREA 04/07

### SPIKE ALERT

The Spikes which line the floors, walls and ceilings of various areas are deadly.

### BUST THE BLOCKS

To slide through the narrow gaps, Nova has to bust the Blocks with his Blades.

### LIFE EXTENSION

To get this Life Tank, jump on the moving platform and then jump to the ledge before the platform moves.

LIFE TANK

## AREA 05/07

## CyberCop

Put on the Newt Suit when fighting Cyber Cop. You can now use the Power Blade.

Cyber Cop waxes in a fairly definite pattern. Try to stay in the corners.

### DRAGONWHEEL

Nova will receive the Newt Suit after he defeats the evil Dragonwheel.

# STAGE 2

## POWER BLADE 2

Working his way deeper into Delta territory, Nova finds himself pitted against powerful new enemies and strange new territory. Among the major obstacles in Stage 2 are ceilings which are composed of moving blades. These are deadly. Use of the sliding technique will be very valuable to Nova throughout the various areas of Stage 2.

How blades on the ceiling? Afraid so.

Go in the door to meet the Dragonwheel!

### AREA MAP

### AREA 02/08

### ENERGY PAK

Quickly jump up and snag the Energy Pak and then slide back down.

### AREA 05/08

### DODGE BALL

Wait for the balls to move out of the way, then slide.

LIFE TANK

### RISEING TIDES

The lava tide will rise above the level of the moving platform. Jump to safety on the stationary platforms and then get back on the moving platform when clear.

The stationary platforms are the only safe spots to be when the tide rises.

Ride the moving platform to the next safe spot because the lava is rising!

Don't worry. The lava will never rise high enough to touch Nova here.

## CyberJet

Nova will have to use patience in order to defeat the airborne Cyber Jet. Small homing missiles will be launched, two at a time, from the Cyber Jet. Wear the Wet Suit because the water level in the room will rise throughout the confrontation. Shoot the Cyber Jet with the Power Blade.

Using the Wet Suit is the best course of action when fighting Cyber Jet. Keep your distance.

As the water level rises, you'll be glad Nova has the Wet Suit on. Block the homing missiles.

NES

# STAGE 3

## AREA MAP

The Delta Foundation has beefed up its security measures in Stage 3. The extremely valuable Rocket Suit can be found here. Nova will test his skills with the Rocket Suit in a vertical ventilation shaft full of deadly rotating fan blades. Now it will begin to be crucial to have as many Energy Paks as possible to power the suits. New types of enemies will appear in Stage 3, but they shouldn't pose a tremendous threat to Nova and his Power Blade.

## AREA 03/07

## DRAGONWHEEL

The best way to avoid the Blue Dragonwheel miniboss is to slide under him as he bounces across the screen.

## FAN CLUB

To clear this area, you must use the Rocket Suit. Wait for the fans to stop moving and then fly up to a nearby platform. Avoid touching the blades at any cost.

Wait for the dangerous fan blades to stop before moving on.

Airight Nova hit a fan blade. It wasn't even funny.

# Cyber Ninja

Ninjas are sneaky and quick. This one's no different! Watch out for the throwing stars and sparks that move slowly along the walls. Be sure to use one of your Suits to throw the Power Blade at the Cyber Ninja. The arrows show his travel routes. Blast him as he moves.

# STAGE 4

**POWER

Comin' at ya with everything! The President of the Delta Foundation has seriously stepped up the enemy forces for the confrontation in Stage 4. Nova has already taken out three of Delta's manufacturing plants and its President is not about to let him demolish any more. However, he has no idea what Nova is capable of. He's a lean, mean fighting machine! Nova will need to find the powerful Patriot Suit in Stage 4.

## GOTTA HAVE THE ROCKET SUIT!

In order to reach the important Life Tank, and the exit, you must use the Rocket Suit.

## SLIP INTO THE WET SUIT

To easily reach the Life Tank and Energy Pak, use the Wet Suit in this area.

## Cyber Gemini

Study the Cyber Gemini's pattern carefully as we have outlined it here for you. It'll take some fancy blade work to take out this pair.

## HANG ON! THERE'S MORE!

"Oh, great! Just what I needed! More trouble." When Nova goes to Stage 4, he'll be able to see Stage 5 looming off in the distance. However, it doesn't end with Stage 5. The action goes on into a final Stage 6. Meet up with Jacqueline in Stage 6 to find out what's really going on in the Delta Foundation. She will tell Nova that Delta's "President" is the core of the problem. Finish him off, Nova!

That'll be your cue to go to the top and claim victory over the Vulture in a fight to the finish.

# STAGE FIVE

## ONCE HE WAS HUMAN ...NOW HE'S HOBGOBLIN

The horrendous Hobgoblin is waiting to catch a curious Spider on the outskirts of the city. Run through the forest path leading to Hobgoblin's cave and knock out the club-tossing trolls if they get in your way. Then hop onto the ledges inside the cave and try to hit Hobgoblin before he hits you.

### TROUNCE THE TROLLS

# STAGE SIX

## MASTERMINDING THE MAYHEM... DR. OCTOPUS IS BACK WITH A VENGEANCE

The man behind the Sinister Six is scheming in his remote castle. You'll find an assortment of henchmen outside, but the villain that you're after is waiting within the walls of the fortress. Fight your way through the crowd and keep searching for Dr. Octopus.

### KEEP MOVING

There's no need to waste your time with two-bit henchmen. Avoid the little guys and continue to charge ahead.

### Plucky's Plunge

Stage 2-2 of this wacky adventure is a water-filled maze perfect surroundings for Plucky Duck. Take Plucky through this stage and look for a passage that leads to the top of the screen in an area without a ceiling. Swim up and out of view, then move to the left or right, over the barrier between the water and the green wall. Plucky will drop into this green area and swim as though he was still in water. This maneuver is more of a curiosity than something that will help you advance to the next stage. Swim in the wall for a while, then hop out and move on to more adventure.

Find a passage with no ceiling.

Send Plucky up and over the barrier.

Plucky can swim inside the wall!

Explore this water-filled passage, then move on.

### Duck Vader Update

In a previous issue, we mentioned that Duck Vader's ship occasionally appears on the map screen between levels of the game and takes you away to deep space. Our best guess was that a running total of 99 Carrots was what triggered Duck

Vader's appearance. It has since become apparent that if you have any multiple of 11 (11, 22, 33, etc...) in total Carrots when you hop onto the map screen, the aliens will abduct you. If you can hop onto Duck Vader's helmet three times during this abduction, you'll earn three 1-Ups. The battle will be tough, but the reward is well worth the challenge.

Make sure that your Carrot total is a multiple of 11 and grab a level-ending Key.

The alien ship will swoop down onto the map screen and take you away.

### Force Code

Two closely related codes for this second installment of the epic Star Wars series can give you a real boost. One code rewards you with all of the Force Powers instantly and the other one lets you skip levels. While you're playing the game, press the Start Button to call up your current Force Powers. Then press and hold Right on the Control Pad (you'll hold this for the duration) and press the Start, Select, A and B Buttons simultaneously. If you do this correctly, the Force Powers will continue to show on the screen. Next (while you're still holding Right on the Control Pad), quickly press the controller buttons in the following order: B, B, Start, A, B, Start, B, B, Start. The Force Powers will disappear from the screen and the action will resume. Press the Start Button again and you'll see that you have all of the Force Powers. The stage skipping code is almost identical to the Force Power code. Call up the Force Powers, then press and hold Right, and press Start, Select, A and B simultaneously. Next (while still holding Right), enter this code: B, B, Start, A, B, Start, B, B, Select. The variation in the last stroke will knock you into the next level. Both of these codes work only in levels where Force Powers are used.

Hold Right and press Start, Select, A and B at the same time. Then (still holding Right) press B, B, Start, A, B, Start, B, B and Start.

The action will resume, only now you'll have all of the Force Powers, allowing you to blast through the level easily.

If you want to skip stages, set up the code the same way as before; then press B, B, Start, A, B, Start, B, B and Select.

You'll be on your way to the next level instantly. Keep in mind that you can only skip levels where Force Powers are used.

#### Stand and Deliver

There's a spot in Stage Three of this combat thriller where you can earn points-a-plenty just by standing still and firing your weapon. As soon as the huge ship with the spotlight appears, run to the left side of the screen and fire to the right. If you have the standard weapon or the Flame Thrower, all of the aliens that drop out of the ship will immediately jump into your line of fire. The ship also drops bombs, but the explosions won't affect your fighter at the edge of the screen. Continue to hold the Y Button to keep a constant flow of fire blasting across the screen. You'll rack up points and occasionally earn 1-Ups. In situations such as this, our agents often wrap a rubber band around the controller so that there is constant pressure on the Y Button, and let the fighter on the screen fend for himself. After about an hour of steady shooting, the fighter has earned enough points to accumulate the maximum of 29 lives in reserve.

When the spotlight ship appears, retreat to the left side of the screen and fire to the right.

After your fighter shoots from this side panel for about an hour, you'll have 29 lives in reserve.

#### Two-Fisted Fire

Our agents have discovered that it's possible to fire two weapons simultaneously in Contra III. Earn a special weapon (the Spread Shot works well) and use it continuously by pressing and holding the Y Button. Then press the X Button quickly and repeatedly to switch back and forth between your special weapon and your normal weapon. The effect will be that both weapons are firing at the same time. Unless you're very coordinated, it will be difficult to move your fighter and perform this trick at the same time. You should try it only in areas where your character can stand still and fire.

When you're equipped with a special weapon, press and hold Y and press X quickly and repeatedly. You'll fire two weapons at once.

#### Double Spin

In Stages Two and Four the action is displayed from an overhead view. While you're making your way through these areas, you can turn by pressing the L and R Buttons. If you'd like to turn twice as fast as usual, tap the turn button once very quickly, then hit it again and hold it. The ground will spin under your feet at a greatly accelerated rate.

Tap the turn button, then hit it again and hold it. Your turn speed will double.

### FROM AGENT #092

#### Secret Rooms

Secrets abound in this game show thriller, including three secret rooms and the Pleasure Dome. You'll find the secret rooms by walking through unit exits. The first one is in the room marked TOTAL CARNAGE, in the lower-right section of Arena #1. Clear the room of enemies and exit to the right. You'll enter Secret Room #1, where valuable prizes are plentiful and enemies are nowhere to be found.

Enter and clear the TOTAL CARNAGE room.

After the enemies are gone, exit to the right.

Welcome to Secret Room #1!

Collect your prizes and keep on moving.

You'll be closing in on another secret room when you reach the room marked BUFFALO HERD NEARBY! in the lower-right section of Arena #2. Clear this room of thugs and exit to the right. You'll enter Secret Room #2. Secret Room #2 is the doorway #9. Clear the room and enter SECRET ROOMS NEARBY! in the lower-right section and exit to the right.

## CLASSIFIED INFORMATION

By exiting to the right after clearing these two rooms, you'll reveal more prize hideaways!

The Pleasure Dome is close to the last room in Arena #3. Move two rooms to the right of COBRA DEATH. You'll reach a room called either YOU HAVE ENOUGH KEYS! or NOT ENOUGH KEYS! depending on whether or not you've collected at least ten Keys in your journey. If you've reached that total, you'll be able to enter the Pleasure Dome. If not, you'll have to try again. Enemies are very abundant in this room. They'll pour in and keep coming for quite some time. When you've finally cleared the room, two exits will light up. By running through the lower exit, you'll enter the Pleasure Dome. Collect the tons of Pleasure Dome Spokenmodels and rack up the points!

If you've collected ten or more Keys, you'll receive this message.

Clear the room of its hundreds of bugs and run through the lower exit.

You've finally made it to the incredible Pleasure Dome!

Collect the Pleasure Dome Spokenmodels to earn big, big points.

## FROM AGENT #810 New Configuration

Thunder Spirits is built with a configuration mode which allows you to change the game speed and difficulty, along with a few other options. You can enter this configuration mode from the title screen by pressing and holding the Select Button and pressing the Start Button. Our agents have discovered that the configuration mode changes after you complete the game. Once you've seen the end credits, wait for the title screen to appear. Then press and hold Select and press Start. The new configuration mode will appear, allowing you to tune in to the game's various sounds, change the number of points needed for a bonus slip and add to your starting number of slips.

When the title screen returns after you've completed the mission, press and hold Select and press Start.

A new configuration mode will appear, allowing you to test the music and adjust other game settings.

© Capcom U.S.A., Inc. 1992

### RAD TO THE RESCUE

Rad Spencer leads the charge of bio-tech warriors in this faithful Game Boy translation of the NES classic, *Bionic Commando*, from Capcom. Rad's mission is to sneak into the evil Doraize Base, rescue kidnapped Agent Super Joe and destroy the mysterious Albatross Project. It's a tall order but Rad can fill it, because he's a Bionic Commando!

## THE RIGHT STUFF

### WEAPONS

You'll begin your mission with a standard issue Assault Rifle, then go on to uncover other weapons in the field: the Wide Range Rifle, Grenade Launcher, Balen M24 and the very powerful MR3A Machine Gun.

### PROTECTORS

You'll find three items that are designed to protect you from enemy fire. Shield Goggles absorb a single shot, Leg Armor shields you from two shots and the Protect Suit takes as many as three shots.

### TOOLS

While there are several special items to be found throughout the Doraize Dukedom, none is as important as the Bio-Protein. When you're equipped with this useful medicine, you can refill your energy meter once.

### VIDEO RECEIVER

Enemy areas are equipped with Communications Rooms. If you're equipped with the right Video Receivers, you'll be able to use the rooms to communicate with your home base and intercept enemy transmissions.

# SATELLITE MAP

**BIONIC  
COMMANDO**

Doraize Dukedom is made up of 17 zones. Eleven zones are controlled by enemy forces (white squares with black numbers on the satellite map) and six zones are neutral (black squares with white numbers). When you destroy the power reactors in most enemy-controlled areas, you'll earn special items or weapons. You'll also be able to pick up special information in enemy Communications Rooms if you're equipped with the right Video Receivers. You can pick up helpful items and learn more about your mission in neutral areas from FF Corps insiders. Pilot the DX-3 Turbocopter to each area and use the Descend command to investigate.

The first area that you'll come across is a remote enemy outpost. Pick up the clues that you can, then destroy the power reactor in the upper-right area.

## THE MISSION BEGINS

### INTERCEPT ENEMY INFO

The Communications Room should be your first stop. You can use the Video Receiver to contact your home base and tap into enemy lines. The operators at your home base will electronically unlock the door to the power reactor so that you can continue to the upper-right section of this zone and surprise the enemy forces.

### SWING OUT

Use your Bionic Arm here to grab the platform above you and swing out to the platform below. If you grab the platform diagonally, you'll have forward momentum. Let go when you swing out to the other side.

### WRECK THE REACTOR

The Area 0 control room is packed with enemies. While none of them is very tough, they have power in numbers. Move to the right of the room, clear away enemies as they approach, and aim for the center of the reactor.

**GAME BOY**

This cavernous base is loaded with armed soldiers at every turn. You'll have to be quick in order to make it to the reactor in one piece. After you touch down, head for the Communications Room and unlock the base gate. Then drop into the base, climb up to the reactor and blast it. You'll earn the Bio-Protein.

### BREAK THE BARRIER

An electronic barrier blocks the tunnel at the bottom of the base. Use your Bionic Arm to climb to the tunnel ceiling, then blast the power source.

### EXPRESS ELEVATOR

If you step onto the elevator on the left side of this chamber, you'll fall eight floors onto sharp spikes. Choose the elevator on the right side for a more gradual descent.

Area 2 is the first neutral zone that you'll come across. Make sure that you refrain from firing your weapon or you'll be ambushed. Collect the Flares, then move on to Area 3.

START

### BITE THE BULLET

There's a single Bullet in this room. You can collect it for more energy meter potential.

### FIND THE FLARES

The Flares in this room are essential equipment for exploring Area 3. Without them, you'll be lost in the dark.

## HANG ON!

This 1-Up is difficult to reach. Swing out under the pipe and grab it in midair. Then pull yourself up and over.

## BIONIC COMMANDO

The windy tunnel of Area 3 is very dark. Make sure that you're equipped with Flares when you drop into this area and send one into the sky as soon as you enter the tunnel. Once you destroy the power reactor in this base, you'll escape with the Wide Range Rifle.

START

## SEE THE LIGHT

You can provide the light at the beginning of the tunnel as this area by sending up a Flare as soon as the screen goes dark. By hitting the lights, you'll be able to see and avoid the upcoming spiked pits.

## BIONIC ARM ASSAULT

The power reactor guard is equipped with a Bionic Arm which fires straight up. If you're hit by the arm, you'll lose your balance but you won't lose energy. Ignore this mechanism and aim for the reactor.

# BATTLE BETWEEN ZONES

If enemy aircraft cross the path of the DX-3 Turbocopter, you'll touch down between zones and take on the opposing forces on foot. There are two big-guns in every on-field battle who will reward you with chances to continue if you're on target. After the battle is over, the enemy aircraft will return, giving you another chance to collect Continue symbols. You should build-up the maximum of nine Continues in no time.

GAME BOY

## SURF'S UP

When you enter this base, you'll encounter waterflows from the sewer. Grab on to the ceiling as the waves are approaching and head for higher ground.

The Doraaz Dukedom sewer system flows through a section of this base. Don't get washed away.

## ROBOT WRECKAGE

A single, sturdy mechanical creature guards the power reactor. Hit it repeatedly with shots from the Wide Spread Rifle.

## SWING RIGHT

When you drop from the ledge above this I-Up, latch onto the overhang with your Bionic Arm and swing over to the right side.

## DEAD END

Talk to the soldier guarding this door, then move on. The room is empty.

## TUNE IN TODAY

You'll find the Beta Receiver here. Pick it up and use it in the next area.

You'll find very little to go on in this neutral zone. Head straight for the second room and pick up the Beta Receiver.

START

## HITCH A RIDE

Mine cars run through this section of Area 6 every few seconds and roll over the small holes in the floor. Instead of being run over by these unmanned vehicles, wait for one from above, drop onto it as it passes and ride over the holes.

## BIONIC COMMANDO

You'll discover interesting information regarding the enemy's experiments in biotechnology by tapping into the lines in the Communications Rooms in this area.

START

## CATCH A CAR

Mine cars are the only way to go in this section. Grab the ceiling with your Bionic Arm and wait for a car to approach. Then let go and take it easy as the car delivers you to your destination.

## DROP AND DANGLE

The only way to collect the 1-Up in this section is to approach it from above. Drop into the area and reach for the ledge with your Bionic Arm. When you've got the ledge, reel in the arm and collect the 1-Up.

GAME BOY

You'll need a powerful weapon and good control over the Bionic Arm in order to clear this area. If you're not qualified to move on, press and hold the Start Button and press the A and B Buttons at the same time to return to the DX-3 Turbocoaster.

### BLAST THE BARRIER

The wall near the beginning of this area will come down only if you're equipped with the Grenade Launcher. If you don't have it, clear Area 6 first.

START

### THE TARZAN TECHNIQUE

The only way to get from the ledge on the right side of this room to the ledge on the left side is to swing from one pulley to the next.

### POWER-UPS OUT OF REACH

The Bio Protein and I-Up on the ledge in this area are unapproachable from below. Drop from the ledge above the items and grab the goods with your Bionic Arm.

If you've been tapping into enemy transmissions you know that a mysterious General Rife is hiding out in this area. You'll earn an Area 9 permit if you manage to overpower the General and destroy the Area 8 Power Reactor.

### SPRING IS HERE

You'll catch a lot of air by falling onto the spring-loaded blocks in this section. Stay high by grabbing the ledge above you.

### KEEP CLIMBING

Several laser cannons hang from the ledges in this area. If you have a clear shot, try to knock them out. If not, ignore them and move on to the next challenge.

START

## BIONIC COMMANDO

### GENERAL RILE AWAITS

Your presence has been detected by General Rile and his cronies. After you exchange a few words with the villains, run to the other side of the screen, turn and fire.

### LATERAL PROMOTION

There's a lot of horizontal space between the ledges in this section. The only way to swing from one ledge to the next is by aiming your Bionic Arm directly out to the left or right. Then reel it in and get ready for another move.

## GEAR UP FOR MORE COMBAT ACTION!

The battle is only beginning! Super Joe remains somewhere behind enemy lines and the Albross Project is still a mystery. ## TUFFY'S IN TROUBLE

Tuffy Mouse is lost and Jerry must find him before Tom puts him in a sandwich. That's the idea behind this action-packed race against the clock featuring the classic cartoon duo. Excellent control, good graphics, ten stages, passwords and a two-player option round out Hi-Tech's Game Boy offering. If you like to play cat and mouse, this is your game.

### Level 1 the Street

This street turns out to be a giant mouse trap. Flipping man-hole covers and spiked roads threaten to put Jerry out of action. On the upside, Jerry has a car to drive and lots of Cheese to collect. High on the windowsills you'll collect special items, if you can find the hidden ledges to reach them.

The only way to reach this Cheese is from the upper ledge. Scan to the right until you see a ledge, then jump.

### REACHING THE HEIGHTS

How can Jerry reach the Cheese on the building's highest ledge? Look for a hidden ledge to the left using the Scan feature, then super jump to it.

### FLIPPING OUT

Jerry should be careful around the flipping man-hole covers. Wait until they are covering the hole, then jump over them.

# TOM & JERRY

## PLAY IN GOOD HEALTH!

Jerry has five expressions, from a bright smile to a look of high anxiety, that indicate his health. If he's hit, he'll go down one level, but if Jerry gets a Star, it improves his health by one level.

### .....COLLECT THESE ITEMS.....

Many of the items will be found easily. Always use the Scan feature to look but some are hidden in secret places.

#### CHEESE

Collect the chunks of Cheese that you can use to boost your score.

#### CLOCK

Winko, dicko, dook. Jerry must find a Clock, which adds 30 seconds to the Timer.

#### HEART

Hearts add an extra Life for Jerry, but they're usually difficult to find.

#### SODA

Find all four Ice Cream Sodas in one stage and you'll earn a Life Heart.

#### STAR

Stars aren't easy to find, but if you do get one, it will improve Jerry's Mouse Meter.

#### BOMB

It takes two Bomb shots to seed Tom packing, but one Bomb item counts for six shots.

The Passwords are made up of graphic elements in the game, like the Clock. Use the Password to bypass completed stages.

### STEEL BELTED RADIALS

No spike is too sharp for the tires of Jerry's car. Once he's behind the wheel, Jerry can drive over the spikes without suffering damage. Be sure to jump before the car falls into a hole.

### SODA BREAK

The Ice Cream Sodas and other items near the end of the stage are easy to miss. Jump from the car to the ledge before you reach the Exit.

### A HOLE IN YOUR PLANS

Look for the bottomless holes in the road. They'll swallow up Jerry's car, and Jerry, too, if he doesn't jump to safety before the plunge.

### EXTRA CHEESE, ANYONE?

The windowsills of this building are filled with Cheese, but you should stop only if plenty of time remains on the Timer.

## GAME BOY

## Level 2 the Park

The Park may seem like a pleasant place, but there are just as many dangers here as in the Street. Jerry can run at top speed through much of this stage, but he'll have to be on his guard for falling acorns, Mouse Eating Plants (M.E.P.s) and Tom.

## HEADACHES

The Acorns fall in bunches, so you'll have to time your run beneath the trees. If you do get hit, look for the Stars above the fountains.

START

## AMBUSHES

Tom is hiding in the garbage can. Wait for him to pop inside the can, then proceed.

## MOUSE MUNCHERS

### TOM

Tom tries to ambush Jerry at every turn.

### M.E.P.

They'll chase Mouse Eating Plants along.

### SEA URCHIN

Don't step on a sea urchin!

### ACORN

Falling acorns can knock Jerry on the head.

### TOY SOLDIERS

The Toy Soldiers patrol limited areas.

## Level 3 the Rooftops

Toy Soldiers patrol the ground and ledges while Tom attacks from behind the chimneys. There's a new way to travel, too. Try crawling through the gutter pipes. Don't forget to look for items on the lower ledges as well as the upper ledges.

START

## PIPE UP, PIPE DOWN

The only way to reach the rooftops is by crawling up the gutter pipes. Jerry can climb through the pipe, either up or down.

## CAUTION: LURKING CAT

If Jerry comes too close to a chimney, Tom will lean out and take a swipe at him. You may want to ignore the Cheese found here.

## FANTASTIC FOUNTAINS

Jump to the top of the fountain when the water surges. From there you can jump to the ledges for items.

## M.E.P.

The M.E.P.s grow thick in some areas. Make sure you jump cleanly over them. Don't waste Bombs trying to destroy the plants.

### MUSICIAN

Musicians may hard and long into the air.

### PICTURES

Picture frames can fall off the wall.

## SKIP THE EXIT

Jump over the Exit on top of the roof if you have time left on the Timer. You can collect more Cheese on the left.

## Level 4 the Lounge

Inside this tall, narrow house, the only way to go is up. Use dumb-water elevators and chair cushions to reach higher levels. Tom will attack from behind the brick walls. Don't be hard by the Cheese.

## HIDEAWAY

Jump up and to the right against the wall to enter a room with many items.

## ARM CHAIRS

They may look like ordinary comfy chairs, but they are really spring-loaded mousetraps capable of flinging Jerry to a higher floor.

# TOM & JERRY

## MORE TO COME

START

Jerry still has six more things to go for: the Shower, the Kitchen, the Garage, the Garden, the Rooftop and the Bedroom. In each, you'll find a different kind of obstacle and a new mouse-trap to do it!

## THE ARCADE GAME

Licensed by Nintendo Entertainment Inc.

Double Dragon 3 from Acclaim delivers a one-two punch as sure and steady as its predecessors with another slam-banger from Billy and Jimmy Lee. Get set for more Game-Linking, street-fighting action.

### THE WIDE WORLD OF BONE-CRUNCHING

Ever since the Black Shadow Warriors called it quits and Maroon decided to settle down, the Lee brothers have been looking for a fight in locations throughout the world. Now, a fortune teller has asked them to recover the Rosetta Stones before another group of brumbers can use the gems for evil intentions. Billy and Jimmy have accepted the challenge.

THE WORLD TOUR		1 AMERICA	2 CHINA
3 JAPAN	4 ITALY	5 EGYPT	

### ALL THE RIGHT MOVES

Fast feet and thying fists are trademarks of the Lee brothers' fighting style. They've made punching and kicking an art form. They've also perfected a High Kick, a Spinning Cyclone Kick and the Wall Drop Kick which involves bouncing off barriers and landing on creeps. And, if that's not enough, they can buy weapons along the way.

## MISSION 1: AMERICA

Before they can leave for their journey around the world, the Lee brothers have to take care of a few things at home. A horde of hoodlums are holed up in a New York warehouse. Help Billy and Jimmy send those punks packing.

**DOUBLE  
DRAGON 3**

### STOCK UP

The neighborhood store sells 1-Ups, energy refills and big sticks. You can either buy two items here or save your Coins for supplies on the road.

### CHOPPER CHUMPS

Madmen on motorcycles roar up and down the warehouse walkway. You can knock them out of their seats as they fly by with a quick High Kick.

## MISSION 2: CHINA

The first of the Rosetta Stones is guarded by a group of Kung Fu Masters. If you've been studying your fighting techniques, though, they'll seem more like practice dummies. Plow through these imposters and claim the stone.

### ARM YOURSELF

Before you start busting bad guys, you can pick up a few helpful items. Nunchuks are a must. You can also purchase extra energy or the Cyclone Kick.

### FIGHT FOR THE STONE

The Kung Fu gang is led by a fighting giant. He'll stop in when you close in on the stone. Cut this creep down to size with the Nunchuks or a few well-placed High Kicks.

**GAME BOY**

## MISSION 3: JAPAN

Samurai warriors protect the second Rosetta Stone in a small Japanese village. Even though they carry big swords, these fiends will fall quickly if you show them the right moves. Knock them out with High Kicks and power Punches.

### POWER-UP

Before you start fighting, you should duck into the store on the edge of town and Power-Up. The best buys are on big sticks and I-Ups. You can also get energy and learn a speed kicking technique.

### SAMURAI SMASH

The inhabitants of this town spend more time meditating than they spend fighting. You should be able to make short work of these slow-movers with very little effort.

### ROCK COLLECTION

The guardians of the second stone are Samurai twins. Before you can take the rock, you'll have to punch out this pair of fighters. Try to take them on one at a time.

## MISSION 4: ITALY

Legend has it that the third Rosetta Stone was stolen from the Orient by European sailors centuries ago. Now it can be found in a small town in Italy. Surprise the villagers with a few swift kicks and take the stone as your own.

### ARCHER ATTACK

All of the creeps in town are armed with bows and arrows. Move quickly to dodge the projectiles coming your way, then whomp those William Tells with all of the firepower that you can muster.

### WARRIOR WORKOUT

The heavily armored warrior at the edge of town attacks with a long spear. Try to stay out of reach while he's swinging, then move in with a High Kick.

## MISSION 5: EGYPT

Once you have all of the Rosetta Stones, the fortuneteller will take you to Egypt. She'll ask you to use the power of the stones to defeat the villains who were trying to steal them.

**DOUBLE  
DRAGON 3**

### BIKER BATTLE

Three motorcycle maniacs buzz by at the foot of the pyramids. You can knock these characters from their bikes if your timing is right. Before they hit you, jump and deliver a High Kick.

### SIDE SWIPE

When you're just outside the Rosetta Ruins, you'll come across a group of whip-wielding fiends. Since these creatures can fight opponents head-on from a good distance, you should attack them from the side.

### ARMED FIGHTERS

The guards in this hall will fire projectiles from their arms. Avoid the shots and move in slowly.

### THE TABLES TURN

The fortuneteller attacks as you close in on the Rosetta Room. Hit this greedy villain with High Kicks.

### THE ROSETTA ROOM

There are several tiles that are decorated with symbols at this booby-trapped room. Unless you step on the tiles with the letters in the word "Rosetta" on them, you'll be ambushed.

## THE FINAL FIGHT

Once you defeat the fortuneteller and escape from the Rosetta Room, there will be only two more villains to conquer; the Mummy and Cleopatra. Stay away from these classic creeps as they attack, then move in with everything you have.

## CASTLEVANIA IV

### HOW DO I BEAT THE GEAR WHEEL IN B-2?

Kasey Curtis

**S**ome things in life are impossible, and this is one of them. You can't beat the Gear Wheel. As the screen scrolls upward, the Wheel keeps rolling, and if you are caught by it, you'll lose a life. It's as

simple as that. The trick is to manage not to get caught. As soon as you get into the area of Block B-2, keep moving upward as quickly as you can. You can speed up your ascent by jumping onto the stairs. If you do, make sure

you are pushing Up on the Control Pad when you make the jump, otherwise you'll fall through the steps and be lost. As in all areas of this game, practice makes perfect...or at least it may keep you alive.

The Gear Wheel appears at the bottom of the screen and rapidly comes after you.

Jump onto the stairs while pushing Up on the Controller. Stairs fall away beneath your feet.

Don't waste too much time defeating the one boss. The Gear Wheel isn't far behind.

### HOW DO I GET PAST THE MOVING PLATFORMS?

**O**nce you've climbed out of danger from the Gear Wheel, you'll meet a second challenge. Here there are *more* platforms that fly up from below the screen. You'll have to ride on them to the exit. Jump onto the nearest platform, then continue to jump up to the higher platforms. In most cases, the original platform to which you jump will carry you into danger, so you want to keep moving.

Jump to the nearest of the moving platforms, then quickly jump again.

Keep moving to avoid the spiked ceilings that are found in this area.

# THE LEGEND OF ZELDA A LINK TO THE PAST

Aris Shorn

## WHERE ARE THE SUPER BOMBS?

The Bomb Shop is in the same place as Link's House, except on the Dark World side. There you can purchase the Super Bomb for 100 Rupees. Once you've done so, the Super Bomb automatically trails behind Link wherever he goes. He should go straight to the Pyramid of Power. Drop the Super Bomb in front of the large, cracked block and stand back. You'll blast a hole into a secret chamber. The Fae who lives in the chamber will give you a special gift.

Buy the Super Bomb in the Dark World shop where Link's House is in the Light World.

Bomb the cracked stone on the side of the Pyramid. Inside, you'll get the Silver Arrows.

## HOW DO I GET THE FOURTH MAGIC BOTTLE?

South of the town in the Dark World, Link will come upon a frog who tells a strange tale. The frog claims that his partner lives in Kakariko Village—a place where there are no frogs. In fact, the frog is refer-

ring to the blacksmith. Take the frog back to the blacksmith and watch the joyful reunion. As a reward, you will be told of a Treasure Chest in the ruined study on the Dark World side. Go to the Dark World while the two

partners are working on your sword. Take the Treasure Chest in tow and go to the sleeping man near the desert. He will wake up and pick the lock of the Treasure Chest. Inside, you'll find the fourth Magic Bottle.

Listen to the pitiful frog and return him to the Light World where his partner is the blacksmith.

While the partners hammer your sword, go to the Dark World to fetch the Treasure Chest.

Heal the Chest to the sleeping thief near the Desert in the Light World to get the Magic Bottle.

## WHERE IS THE CAPE?

The Cape's magical attribute is that it renders Link invisible. If you have difficulty finding it, you may think that the Cape itself is invisible. It isn't. It is just hidden. Once you have the Titan's Mitt, go to the Cemetery and remove the dark stones that block the enclosed tomb. Now, back off and Dash at the tombstone. Link's impact will open a secret passage beneath the tombstone. Inside, you'll find the Cape.

Remove the dark stones from in front of the enclosed tomb once you have the Titan's Mitt.

Dash against the tombstone and uncover a secret passage that leads to the Cape.

# BATTLE OF OLYMPUS

## HOW DO I DEFEAT THE VAMPIRE?

Nick Uwech

**O**ne of the best strategies is to make yourself harder. Collect the first two Ambrosias (as described in the section below) before battling the Vampire. That will effec-

tively double your Life Meter. You'll also want to increase your abilities by collecting various objects. See Hermes in his temple to get the Sandals so you can jump higher. Then visit Athena to

obtain the Shield for better protection. With all these improvements, you should be able to withstand the Vampire's attacks long enough to defeat her.

Hermes will give you the Sandals, which allow you to jump higher during battle.

Athena's Shield will help protect you from mythical beasts like the Vampire.

With Sandals, Shield and extra Life Meter, you should be able to defeat the Vampire.

## WHERE ARE THE FIVE AMBROSIAS?

**E**ach Ambrosia lengthens your overall Life Meter, and refills the Life Meter when you get it. The first Ambrosia is in Argolis. Take the second cave to the right and drop into the first pit left of the door to Hermes' Temple. Here you'll find a room full of snakes (called Salamanders). Collect 20 of these skins, then visit the old lady and buy the first Ambrosia.

The second Ambrosia is in the woods of the Peloponnesian Forest. Look for a tree in the middle of the screen. Kneel on the branch and hit the tree to make the Ambrosia appear. Laciaia is where you'll find the third Ambrosia. Defeat the second Cyclops to win the third Ambrosia. From the Fountain Room, go upstairs, then jump over the wide pits to the right. Inside, an old man will give you the

fourth Ambrosia. The final Ambrosia is in Phrygia. After running past the guard at the entrance, you must fight two serpents. Use the Divine Sword and Bracket to attack from no more than five squares away. When you see the third serpent, go upstairs to get the fifth Ambrosia. After boosting your strength, go back down to battle the third serpent and to win the Mocobeam.

Fall into the hole left of the door to Hermes' Temple. Below, collect 20 "Salamander" skins.

The first Ambrosia must be purchased from the old lady who demands 50 Olives.

In the Forest, kneel on the tree branch and hit the tree for the second Ambrosia.

Defeat the second Cyclops in Laciaia to win the third Ambrosia Power Up.

Climb up the stairs from the Fountain Room and jump to the right to find the fourth Ambrosia.

After defeating two serpents, head upstairs to get the fifth Ambrosia. Then fight the snake.

# KIRBY'S DREAM LAND

Tony Burgess

## HOW DO I FIGHT LOLO AND LALA IN LEVEL 2?

**T**he trick to beating Lolo and Lala is for Kirby to get behind one or the other of them. You can do this by dropping through the passage blocks from above, or by hopping up through a

set of passage blocks from below once Lolo or Lala has passed by. Wait for them to pass, then drop down or jump up. Once he's behind the unsuspecting enemy, Kirby can inhale its block. The block

will go right past its owner and get sucked up by Kirby. As soon as you inhale the block, spit it out at Lolo or Lala to score a hit. Keep this up until you've knocked out both Lolo and Lala.

Position Kirby so he can pop up behind Lolo through the passage blocks.

Kirby can inhale the block right past Lolo, then spit it back to score a hit.

Keep up this strategy until Lolo and Lala have had enough. They'll vanish in a heartbeat.

## HOW DO I BEAT KING DEDEDE?

**O**ne of the King's attacks is the Jump & Stomp. He jumps up and stomps down. When he hits the ground, stars appear from the impact. If Kirby is nearby, he can suck

up the stars and spit them back at King Dedede to score a hit. This is really the only way to win. In the other two attacks, King Dedede runs back and forth trying to inhale Kirby, or he chases

Kirby with a hammer. You can always escape by jumping or flying above the King when he chases or you. If you're really quick, you can use the stars from the Hammer to attack the King.

Defeat the four area bosses before moving on to King Dedede, the final foe.

When King Dedede stomps down, stars fly out. Kirby can suck up a star and spit it back.

King Dedede also runs around and attacks with a Hammer. You can jump or fly to avoid him.

## OFFENSIVE & DEFENSIVE PLAYBOOKS

Can Washington's defense bring you a national championship? How about Miami's vaunted passing attack? Or maybe Colorado's punishing ground game... each team has its own playbook and style, so each season is different.

Colorado's offense is loaded with run option plays.

Washington's defense is tough against the run.

## 28 NFL TEAMS AND PLAYERS

All 28 NFL teams are included, each with its own 16-game season and playoff schedule. Substitute players from your 30-man roster for injured or tired players and bring in extra men to run special nickel defenses or 3-wide receiver offenses.

Teams are divided into their real NFL divisions and conferences.

Watch the Energy Meter so you can substitute for tired players.

## OFFENSIVE & DEFENSIVE PLAYBOOKS

Offensive players can choose two audibles at the start of each quarter that can be called using the L and R Buttons. There are 32 offensive and 16 defensive plays in each playbook, and each team has its own playbook.

# SUPER PLAY ACTION FOOTBALL™

## SUPER BOWL

Nothing compares to the excitement and drama of the Super Bowl, especially in Super Play Action Football. Now join the Washington Redskins and Buffalo Bills as they battle for Super NES supremacy. With Buffalo leading 21-17, late in the 4th Quarter, Washington has the ball, 1st and Goal to Go, on the 10-yard line.

### 1<sup>ST</sup> DOWN AND 10

Washington calls a Sweep Right play as first down, hoping they can pound the ball in on the ground. Buffalo gambles, calling 4-3 Outside Fly defense.

The Washington quarterback passes the A Button to snap the ball, and then pitches to the sweeping running back using the B Button.

The Buffalo player uses the L or B Button to switch to a close player and blitzes around the end with a hard-charging linebacker.

The runner tries to sprint using the A Button and spin away using the L and B Buttons, but is tackled for a 5-yard loss.

### 2<sup>ND</sup> DOWN AND 15

Washington calls a TE Screen play on second down. The Buffalo defense knows a pass is likely but plays a conservative 3-4 Man-to-Man.

The quarterback takes the snap and drops back, waiting for the screen to set up. He then dumps the ball off to the tight end using the B Button to pass.

The tight end catches the ball and rumbles a few yards upfield, using the X Button to stiff one way would be better...

...then, as his blocking deteriorates, he sees the B Button to dive past two defenders for a nice 3-yard gain.

# 3<sup>RD</sup> DOWN AND 10

Washington looks to pass and sets for a Drop Short play. Buffalo brings in its reserve cornerback and calls in Nickel Zone defense.

Using the Select Button, the Washington quarterback changes the size of the radar screen. Now he can easily spot open receivers downfield.

The Washington quarterback spots a receiver open over the middle and lets a pass using the Y Button. The wide receiver jumps using the Y Button and makes the catch but is hit at the one-yard line by a defender using the X Button to super tackle.

# 4<sup>TH</sup> DOWN AND 1

Being 1st & 4, Washington has no choice but to go 1st & 10 - unless on 4th & 10, and call a live play. Buffalo lines up in a 5-3 Good Line defense and gets ready for the surge...

The Washington running back takes the handoff and uses the Y Button to super drive up and over the pile. Touchdown! The Washington Redskins win the Super Bowl!

# THE SIMPSONS™ BART'S NIGHTMARE

© 1992 Acclaim

MATT GROENING

Acclaim's new  
Simpsons adventure  
for the Super NES has Bart  
trying to make the grade—in his dreams.  
The pursuit starts on the streets of Windy  
World and continues through six stages,  
each starring a Bart superhero. You'll see  
Bartman, Bartzilla, Indiana Bart and more.  
And Homer, Maggie, Lisa and even Mr. Burns  
show up to turn his dream into a night-  
mare. The play is challenging, and if  
you're a Bart fan (and a Bartman  
fan), you'll like the classic  
Simpsons animation.

## Let's See That Report Card

## WHAT A NIGHTMARE!

While doing his homework, Bart drops off to sleep.

Only as he awakes does Bart learn of A+ for his fine work.

A gust of wind catches Bart's homework and carries it down the street. Bart gives chase, but just as he's about to grab pages, they skitter off again. Enlist Bart's superhero alter egos to find all six pages and earn the big A+.

### Bartman

Cool, man! The amazing masked Bartman can fly! Super Slingshot in

hand, he plans to make the skies a friendlier place.

### Bartzilla

On the loose in Tokyo, Bartzilla levels buildings and blasts the tanks, jets

and helicopters sent to take him out. Argghh!

### Indiana Bart

Wielding a mean Whip, Indy Bart explores the mysterious and deadly Temple of Maggie.

# Windy World

## BART'S NIGHTMARE

Bart's nightmare places him on the streets in Windy World, and he's not alone. Mailboxes uproot themselves to attack, school buses turn into steamrollers, and Lisa floats aloft waiting to turn him into a Frog as he pounds the pavement, searching hopelessly for his lost homework.

Summer, man! When Lisa starts, Bart runs above, he turns into a Frog, and Frogs can't collect Zs.

Bart remains a Frog, hopping the streets, until he finds a woman who throws him a kiss. Grrrr!

# Clean Up The Streets

As he walks the streets searching for his wand-blown homework, Bart

finds all sorts of trash, such as cans of Pop, Bubble Gum, and Watermelon

Seeds. Each has a use, so tidy up Windy World and collect a stash to use later.

## The Big Belch

When he gulches a can of Pop, Bart lets loose a killer Belch that clears the streets of messes.

## Bubble Gum

Bart uses Bubble Gum to Bart Blue Zs into his realm. Sometimes they burst on the old woman.

## Watermelon Seeds

Bart's Watermelon Seeds stop the Floating Fish and the movie Televisions. Press A and 123!

# Do I Have To Wear A Suit?

Bart doesn't HAVE to suit up, but he might WANT to at times. When he touches the man carrying the Suit on a hanger, he spins instantly into it. The Suit protects him from damage, thus saving Zs, but keeps him from collecting additional Zs and using weapons.

# Bartman

Bartman, caped crusader extraordinaire, patrols the skies armed with his trusty Slingshot. The vigilant superhero can earn lots of points by shooting rockets launched from below, deflating

Krusty balloons drifting above, and battling foes familiar to the waking world. When a Boss Meter appears, it means that a major meany is on the way. Get the jump on it! Fly to the left side of the screen and start blasting away before it shows.

## I'll See You In My Dreams

In Bart's nightmare, foes from his everyday life show up. As Bartman, he flies the skies armed with a

Slingshot. He meets that crusty ol' Burns, his boot-licking assistant, Smithers, the tormenting Twins from

school, and even his dad's barroom buddy, Barney, riding a pink elephant. And boy, can Barney belch!

The Twins test Water Balloons on Bartman as they look above in a basket.

Even Bart's killer Belch is no match for Barney's bad breath. Beware!

Burns's blimp may be slow, but it's stocked with an array of rockets.

Smithers spins for a delight as he darts around in his vintage biplane.

## The No-Fry Flight Plan

### Mind The Missiles

The Missile barrages are dangerous throughout the stage, but they're deadly in the radon-cloud region. If they shoot the Bartman down, expect an electrifying encounter with a cloud. They deplete the life force with a ZZZZZZ in a matter of seconds.

# Maggie's Temple

**BART'S  
NIGHTMARE**

Whip in hand, Indiana Bart calls upon his years of research and investigative experience to figure out the puzzling path through the temple on colored stones of various heights. While avoiding the temple's demons, Lady Bart must figure out which stones are safe to step on judging from

their heights and the number of times they've been used as landing sites. If he gets to an Egg before the Bud does, he'll have an extra chance to solve the mystery of Maggie's Temple, starting with figuring out how to avoid her Pacifier projectile. What is Homer hiding?

## Part 1

### Squaawwkk!

Beat the big Bud to its Egg for a 1-Up and 200 points. Listen for a loud squawk. That's the sign that the bird is about to descend.

### Super Spit

Maggie is a supersonic spitter. If you cross her line of fire, she torpedoes her Pacifier. Jump to a low Blue Stone to avoid it.

### The Blue Devil

The Blue Devil hops around in a square, and if he gets close enough, he'll push you off your block with his pitchfork. Whip him good.

## Part 2

### The Green Devil

The Green Devil chases Bart from stone to stone. If you wait too long on one pillar to set up a whip shot, you'll drop out of sight.

### Find A Safe Path

Jumping onto some stones makes others rise. Look for a path that raises the stones that you can use to avoid Maggie's Pacifier.

After the first Maggie chase in Part 2 shoots her Pacifier, move to the top row and jump forward seven blocks, then hop back two. Go back to the bottom row and jump safely forward.

**SUPER NES**

# Bartzilla

In his dreams, Bart becomes Bartzilla, a huge reptile capable of striking fear in the hearts of the tiny people of Tokyo. First, he cuts a path through the city streets, then, in a second stage, he climbs a tower topped by a big ape that looks suspiciously like Homer.

## Part 1

Bartzilla cuts a wide path through Tokyo, destroying everything within range. He spits fireballs at buildings and helicopters and shoots deadly laser beams from his eyes. Firebomb buildings and zap the train for a high score.

### Watch The Jetstream

When a jet streaks to the right across the bottom of the screen, expect it to attack in short order at eye level. Use your eye beam to ground it.

### Shoot Shoot Shoot

The more things you shoot, the higher you'll score, so keep your fingers flying and blast away. At the stage end, you'll reach a tower.

## Part 2

Now Bartzilla must climb the tower to zap Ape-man Homer at the top. Watch out for falling frying pans, tossed TVs, even launched kitchen sinks. Press A to become an electrifying blue lizard.

### Mad Marge

Marge is a massive, mad hussler. To avoid her sting, stay as low on the screen as you can until she leaves.

Stop and hang on to a low rise of windows when Marge buzzes the tower.

Resume your climb when she flies away, but watch out for her return flight.

### Ape-man Homer

A hairy Homer perches atop the tower, and only an electrified Bartzilla can shock him back to his senses. A good jolt will make him regain his senses.

# Infection World

In Infection World, Bart dons his swim fins for a dip in the germs. Armed with an air pump, he gloms on to the troublesome cells and fills them past the stretching point with air. Ka-Boom! If timed right, the explosions can also wipe out nearby germs. He can hold his breath for a long time, but he can't withstand attacks from well-armed germs.

## Flee From Funnel Heads

Punty-peaked army germs don't shoot, but they can burst Bart's bubble by poking him. Blow them away as soon as possible.

## Mind The Metal Heads

Talk about your germ warfare. These metal-headed meanies launch grenades, so watch out for their floating fireballs and try to blow them away before they can pull their pins and mine the waters.

## Take The High Tide

While you're pumping up an enemy, stay near the top of the screen to avoid germs floating below.

MAP CARICATURE

# Radiation Rider

Radiation Rider is a cowboy with a cause. If diving Bart can touch him six times, he'll recover a piece of Homework.

He shows up on both sides of the screen, and you can tell he's about to arrive when you hear him say, "Hi, there!"

# Itchy & Scratchy

## Household Hazards

The house has a mind of its own. Now Bart has to watch out for hazards like attacking Telephones and bouncing Light Bulbs.

## The Living Room

In the Living Room, violent Vacuums try to sweep Bart up, and Marge's Eyeballs bounce at him off her portrait.

## Table Tap Dance

If you stand on the Table you'll be out of reach, but from there, you can flatten Itchy and Scratchy with your Hammer.

## Kitchen Encounters

Stand by the cabinets, as shown, right. From there, you can avoid the Oven's flame. If you don't have the Extinguisher, throw Pop Cans at the Bubbles in the Sink.

# Scratchy

## The Extinguisher

The Fire Extinguisher is a valuable weapon. There's only one in the game, and you'll want to save it for end enemies.

## Do Jump On The Furniture

The overstuffed Chair in the attic is a safe spot to stand in, but be careful when you step down to attack.

## Power Bulbs

The first three bouncing Bulbs become 1-Ups if you spray them with the Extinguisher.

# SUPER MARIO KART™

Fifty smokin' laps! Kart mania is spreading and has invaded the realm of Super Mario World. Eight familiar Nintendo characters compete for the highly coveted Kart cups. Donkey Kong, Jr., long missing from video game action, returns as one of your Kart racer choices. The racing action is very similar to that of F-Zero, as is the "behind-the-driver" point of view. However, unlike F-Zero, Super Mario Kart features a split-screen, 2-Player simultaneous mode. As with all Mario games, Super Mario Kart is a whole lot of fun!

SUPER NES

# CHARACTERS

Each character's Kart in Super Mario Kart has different racing capabilities, but each character can win any given race. You just have to know how to get the most

out of each Kart. This knowledge will come with practice. In the 2-Player Mode, each competitor must choose a different character to race with.

<p><b>MARIO</b></p> 	<p><b>PRINCESS</b></p> 	<p><b>BOWSER</b></p> 	<p><b>KOOPA</b></p> 
<p>Mario is fairly quick and corners well. He doesn't have the highest top speed, but he is a good overall choice. Mario tends to over-correct when coming out of a turn.</p>	<p>The high-revving Kart which the Princess drives is a very good choice for a competitor who wants a steady Kart. The Princess corners a bit better than Mario.</p>	<p>It's a wonder Bowser even fits in his Kart! He's slow to accelerate, but because of his weight, he carries a lot of momentum and has a very fast top speed.</p>	<p>The Koopa could set a record! He's not extremely fast, but he corners well. He's like a cross between Mario and Bowser. You can rely on the gas longer than other racers.</p>
<p><b>LUIGI</b></p> 	<p><b>YOSHI</b></p> 	<p><b>D.K., JR.</b></p> 	<p><b>TOAD</b></p> 
<p>Luigi races in much the same manner as Mario. It makes sense, they're brothers! It appears that Luigi is not quite as spry when coming out of the tight corners.</p>	<p>Yoshi and the Princess probably practice racing together because they seem to have the same abilities. Yoshi would be a good choice for an intermediate driver.</p>	<p>The ape probably has the fastest car, but he doesn't corner well. If you're a pro Kart racer, choose D.K., Jr. He's the one to get you to the finish line first.</p>	<p>Toad is similar to Koopa and could possibly beat him out in a close race because his acceleration is a bit better. See if Toad can beat 1:11:20 on Mario Circuit 1.</p>

# FORMAT

Choose a difficulty level by selecting either the 50cc or 100cc class. Your Ranking and Time statistics will show you how you've done against your competition.

## KART CLASS

There are two different Kart classes which you can compete in. The 50cc class is for beginners. The 100cc class is for advanced racers. Here, the action is faster and you will be severely bumped around by the competition.

## RANKING

You'll receive a set amount of points for placing in the top four spots in each race. If you place anywhere from fifth to eighth in any given race, you'll be "Ranked Out" and you'll have to RETRY or END your game.

## TIME

Not only will you see your overall elapsed time for each race, you'll see your individual lap time. Using this information will help you to see where you may need improvement. Your first lap will usually be the slowest.

# ITEMS

**SUPER  
MARIO KART**

When your Kart passes over a "?" block, press the A Button. This allows you to acquire a special item. Refer to the chart to find out what to do with them. Press the A Button to use an item.

<p><b>RED SHELL</b></p>  <p>The Red Koopa Shell can be referred to as the <b>Roasting Shell</b>. When launched, it will <b>strik</b> out opponents and crash into them, causing them to spin out.</p>	<p><b>FEATHER</b></p>  <p>With the Feather, you can <b>loop</b> gaps or <b>leap</b> over walls which you can't normally loop by passing the A Button. Try using it on the Ghost Valley tracks.</p>	<p><b>COINS</b></p>  <p>Run over the Coins to pick them up. The other racers can't pick up the Coins on the track. However, you'll lose Coins if you crash into your opponents.</p>	<p><b>MUSHROOM</b></p>  <p>A burst of speed will result by pressing the A Button while the Mushroom is shown on the screen. Use it as a <b>prong</b> strategy to pass others.</p>
<p><b>GREEN SHELL</b></p>  <p>"Who shot the shell?" This is a common question when you <b>roll</b> opponents with the Green Shell. It shoots straight out. It can return to <b>blast</b> you, though.</p>	<p><b>STAR</b></p>  <p>Invincibility is the result when you utilize the Star. If you come in contact with an opponent when you're invincible, they will spin out of control.</p>	<p><b>BANANA PEEL</b></p>  <p>If a Kart runs over a Banana Peel, it will spin out of control and is likely to drop back a few positions. Drop the Peels in highly travelled areas.</p>	<p><b>LIGHTNING BOLT</b></p>  <p>You don't get these very often. Almost never! Using the Lightning Bolt will cause your opponents to <b>crash</b> in size. Now you can run over the top of them!</p>

# PLAYING TIPS

There are various playing techniques which will help you to get around the tracks faster than anyone else. It's usually the smartest, not the fastest, racer who crosses the finish line and takes the flag first.

## START STRATEGY

It varies for different Karts and different track conditions, but you can get a hole shot if you rev your engine just the right amount. Experiment.

## COINAGE

The more gold Coins you collect, the faster you can go! Choose your lines carefully when racing so you can run over as many Coins as possible.

## SLIDING TECHNIQUE

Sometimes, sliding around corners can be advantageous. Try this: instead of slowing down, swing wide and then slide around long, sweeping corners.

## YOU DROPPED THE BANANA

Any racer can pick up and drop a Banana Peel, but it's the racer who can accurately place the Banana Peels in strategic locations that will benefit the most from the slippery skins.

### BANANA CHUCKING

To **drop** or **throw**? Yes, I believe, is the question. Press the A Button to drop a Banana Peel. What's more, you can press the A Button and press Up on the Control Pad to throw a Banana Peel out at least 250

### SHELL DROP

Normally, when you have a Shell, you will shoot it out in front of you. However, to drop it off on the track, press Down on the Control Pad and the A Button.

### CORNER CUTTING

If you have the Feather, you can use it to shorten the distance you have to race. Jump over banners

### JUMPING

By pressing either the L or R Button, you can jump your Kart over Banana Peels and other small obstacles.

**SUPER NES**

# MUSHROOM CUP

## MARIO CIRCUIT 1

This is by far the easiest track to negotiate because there are no hairpin turns. This is a good track to test the abilities of each Kart and its driver. Choose a 1-Player Time Trial and continue to switch Karts to find out which one suits your racing needs.

### A COINS

Choose a line which takes you directly over as many Coins as possible. They are terrific speed-builders. Get some on every lap in several locations.

### B ITEMS

There are 12 square gold "B" Blocks in this area. Each one houses one item. When you cross over a Block, press the A Button to pick up an item. The Block will turn red when it has given up the item which it held.

## DONUT PLAINS 1

On Donut Plains 1, the Kart gang will experience some slippery surfaces for the first time in their racing careers. There are several corners which have loose dirt and debris strewn about. Some of these corners are of the hairpin variety, too! Slow down for them.

### A DON'T SLIDE

If you go over in a corner you may end up losing some Coins and you may also lose a valuable position or two. It's extremely important to remember what type of corner is coming up.

### B DIZZING

Because of the loose surfaces, you may experience more sliding than you want. Silver eggs off of the A Button to slow down or end up in the grass and slip into a barrier.

## GHOST VALLEY 1

Scary. The Ghost Valley tracks are very dangerous because you'll have many opportunities to fall off the edges of the elevated wooden track. The Feather is the most prized item here.

### A SHORTCUT

Using the Feather to jump, you can cross the gap and make it out to the narrow bridge which will drastically cut the distance you have to travel. There may be a way to make the loop without the Feather. Hm-mm???

### B DROP OUT

You'll lose precious time if you drop off the edge of the Ghost Valley track. Puhls! Lakits will place you back on the course, but he always charges a fee.

## BOWSER CASTLE 1

Unlike the other tracks in Bowser's domain, there aren't too many difficult obstacles in Round 4 of the Mushroom Cup. The Thwomps will probably be your biggest headache—especially if they land on your head! Try to hit the Turbo Tiles in the long straight stretch.

### A SPIKELESS THWOMPS?

Well, they are Thwomps, but they have no spikes. Nonetheless, their belly bulks of granite will stop your Kart in its tracks. It's best to choose a line which takes you right between these Koombucklers.

### B GREASY GRANITE

Don't run too slowly when driving through these areas because you may spin out. It's very slick! Bowser must have put his cronies to work on it before the race.

## MARIO CIRCUIT 2

The coolest thing about Mario Circuit 2 is the crossing area of the track. You won't have to slow down for crossing Karts, you can sail right over the top of them. Be careful when shooting a Shell in the crossing area—it could bounce right back and take you out instead of your rivals!

### A SWING WIDE

Before entering this corner, swing out to the edge of the track then swoop in to cut the corner sharp. This technique should get you around the corner while maintaining some speed and not going off the track.

### B CROSSING

Here's the key: pick a line which will send you directly between two of the green pipes when you land on the other side of the track. Every thing else is easy!

## SPECIAL FEATURE 2-PLAYER MATCH RACE

Two players can test their wits against each other on any course in the 2-Player Match Race Mode. A win/loss record is kept for each Kart racer. The losing racer is given the opportunity to change the course, change Karts, retry with the same Kart or end the game.

# FLOWER CUP

## CHOCO ISLAND 1

The terrain on Choco Island 1 is dominated by bumpy surfaces and mud slicks. Maybe some of the bumps are buried candy bars. Could be. The corner right before the "7" Blocks is the only one you should need to set up for.

### A IT'S A SETUP

These "O" curves require some set up. And, given the fact that each Kart reaches differently, you should experiment to find out what point each Kart will begin sliding.

### B MUD BOG

It's difficult to avoid the Mud Bog. You'll spin out if you try to turn too sharply in the Bog. Use a Mushroom to blast through the Bog if you have one.

## GHOST VALLEY 2

Let's go the other way! Previously, all of the tracks were travelled counter-clockwise. Ghost Valley 2 takes on a clockwise lap rotation. It's a different "feel," but you'll get used to it easily. You can make good use of a Feather on this track.

### A BREAKAWAY BARRIERS

The square wooden barriers which line various portions of the Ghost Valley track will break away if you crash into them. Be careful—they won't be there for a second bump!

### B SLICK TRACK

The Boo Buddies must have been busy waxing the floor. By now, you're familiar with slick surfaces. Tread lightly through these areas.

## DONUT PLAINS 2

There aren't many slick corners in Donut Plains 2, but almost every corner is severely sharp. For this track, it would be wise to choose a Kart Racer who corners well and has good acceleration like the Princess or Yoshi.

### A WATER SKIP

Lower is going to go on into by skipping over the edge of the lake. Activate the Mushrooms just before getting to the water's edge. Lower, or any other Kart driver, can accomplish this feat.

### B MONTY MOLES!

Monty Moles are back once again to give your race troubles! They'll jump up and offer themselves in the front of your Kart. Jump up and down to shake them off.

## BOWSER CASTLE 2

In this, the second area of Bowser's Castle, it's very important to accurately set yourself up to take each corner as smoothly as possible. Each corner is a ninety-degree turn. This means: no cutting corners. Give yourself a wide berth. A Feather may come in handy for some of the turns.

### A WHICH WAY, EH?

If you take the "outside" route, you're likely to hit the Turbo Tile and get a needed burst of speed. However, by taking the "inside" route, you won't have to slow down quite so much in the corners. It's up to you.

The "outside" route and the Turbo Tile.

The "inside" route is a more direct path.

### B LINE UP THE JUMPS

Make sure that you take the jumps straight on. If you don't, you could end up landing in the molten lava. Puhin Lakitu will come along to bail you out, but the slowdown will hurt.

## MARIO CIRCUIT 3

The 12 square "7" Blocks appear right after the start/finish line on Mario Circuit 3. This gives you the opportunity to gain an advantage right from the start. Proper use of the Item which you pick up will definitely help you. You'll need to slow down to negotiate the hairpin turn in the midsection of the track.

### A TURBO PLATE

When coming out of the last corner on each lap, make sure to pass over the "7" shaped Turbo Tile. Before hitting the Turbo Tile, use your Kart strength down the track. This will prevent you from losing all of the momentum.

## SPECIAL FEATURE 2-PLAYER BATTLE MODE

It's one-on-one in the Battle Mode! Select one of four maze-like courses to do battle on. Three protective "bumpers" will encircle your Kart. If you get hit, you will lose one of your bumpers. The rule is: three hits and you're out! It's usually a wise decision to choose a Kart which has good cornering ability. This will better allow you to negotiate the courses.

# STAR CUP

## KOOPA BEACH

There aren't any tight turns on Koopa Beach. It's a good thing—the sand surface isn't the best for traction. The main obstacles are the narrow course width and the water. Your Kart will sink if you get out into the deeper, darker water.

### A DEEP WATER HAZARD

Again, Fishes Lakitu will be employed to lead your Kart out of the drink. He looks a bit upset, but he'll gladly take your Coins. Avoid the dark blue areas. This is the deep water. It's a good idea to hop through the shallow water using the L or R Button.

### B JUMPING FISH

The Fish which Pop around in cartoon areas of the beach will do the same thing to your Kart as any other obstacle: cause it to spin out. Don't worry, they're fairly easy to avoid.

## CHOCO ISLAND 2

All of the Kart racers had so much fun racing on Choco Island 1, they decided to have at it again! This time, a much larger patch of chocolate goo awaits them as they make their way around the tasty track.

### A MUD BOG

You can try to go around the edges of the Bog. However, it's not recommended. You'll end up wasting too much precious time. Blast right through the middle. Try to steer towards the small island in the middle of the muddied Choco Bog.

### B NARROW ROAD

Several Piranha Plants line the narrow straight stretch in this short area. Avoid getting humped off by the companion.

## VANILLA LAKE 1

Oh, great! Not only is Vanilla Lake iced over, it's got a truckload of obstacles and it's also difficult to see exactly where you're going. Keep in mind that this is probably the shortest track. You'll be turning constantly to the right.

### A ICE BARRIERS

In a couple of places on Vanilla Lake 1, you'll encounter small blocks of ice. Obviously, the best strategy is not to hit them, but if you do hit them, they will break away. Always remember where they are.

## BOWSER CASTLE 3

Bowser's course creations keep getting more difficult. Bowser Castle 3 doesn't have as many corners as Bowser Castle 2, but you'll have to be just as good at cornering and keeping your Kart heading in a straight line.

### A LANE CHOICE?

There are three lanes which you can choose from in this track. The inside and outside lanes have Turbo Tiles which boost you quickly down the stretch. The middle lane has two "P" Blocks containing items.

## MARIO CIRCUIT 4

Mario Circuit 4 is a long track and has corners of all shapes and sizes. If you was in the 100cc class here, you should consider yourself an expert Kart racer. Hang on to your Coins—you'll need all the speed you can get! The other racers will try to stop you from making it to the Special Cup Race.

### A PIPE BARRIERS

Those pesky pipes can pop up anywhere! Unfortunately, they pop up in a couple of places on Mario Circuit 4. Go around!

## SPECIAL FEATURE 100cc SPECIAL RACE

To make it to the 100cc Special Race, you will need to win the Mushroom, Flower and Star Cups. A good Kart racer will usually take the Silver Cup in the Star Cup race. However, only the best Super Mario Kart racers will take home the Gold in all three preliminary Cup races. Can you conquer the challenge of the 100cc class?

# OUT OF THIS WORLD™

## NEW DIMENSIONS OF PLAY

Out of This World from Interplay plunges you into a comic book/cinematic adventure on your Super NES like nothing you've ever seen before. Dolphin Software, the game's developer, went to extraordinary lengths to achieve their vision of the game, using new programming techniques to create the impressive graphics. As you play, animated scenes link your actions to the story line. You'll also see cutaways and close-ups during play that add to the drama. The musical score

and sound effects further heighten the mood of the different scenes, from the frenzy of a laser shootout to the quiet footfalls of your hero searching a lonely cavern. The game play itself consists of figuring out ways to avoid traps. Sometimes the traps appear in the form of attacking aliens, while other times you must avoid floods or rock falls. Although the control requires patience, the overall effect of the game is truly out of this world.

# BEYOND FAILSAFE

OUT OF THIS WORLD

Letter Knight Chaykin, a scientist working on an experimental particle accelerator, is running a test late one night. Bored deep in the control room, he is oblivious to the storm raging above ground. As the experiment reaches its critical phase, a freak bolt of lightning enters the acceleration chamber, causing a dimensional shift. Chaykin is transported to an alien world where he is a fugitive, running for his life. With the aid of an alien prisoner, he must somehow find a way back... or at least a way to survive!

## STAGE 1: SHADOW BEAST

After climbing from the deep pool where Professor Chaykin enters the alien world, you're faced with a strange landscape haunted with dangerous creatures. The most terrible of these is a savage beast who waits at the far right edge of this stage.

### STAGE ORDER

- 1 Run to the right.
- 2 Kick slugs.
- 3 Run to the left.
- 4 Leap to the vine.
- 5 Escape to the right.

## CAUTION!

Much of the challenge of this game comes from figuring out how to get past traps. The solutions appear in shaded boxes. Use them as a last resort.

## AREA 1: THE TENTACLE

If you swim down to the pool for several seconds, long tentacle reaches up from the pool. If you will don't move, the tentacle wraps around Chaykin and pulls him into the depths. Keep moving to avoid this menace.

Don't stand still in the pool.

## AREA 2: SLUG BAIT

Even the slowest creatures in this alien world can destroy you. One bite from the silver-toothed slug will end the game. Approach them by walking up to them, then kick them using the Y Button. One kick will turn a slug into slime.

Use the slugs to reach up.

## AREA 3: RUN AWAY!

Walk toward until the screen shows the Shadow Beast. When the beast appears, push left on your Controller and hold the A Button. Now, as soon as the same switches back to the action, run to the left at top speed.

Run left the instant you appear.

## AREA 4: JUMP TO IT

At the far left edge of the stage, drop to the vine. The grunting bear will be right around the corner. You'll swing past the bear and land to the right of it. Start running back to the right, and don't stop until an alien shoots the creature.

SUPER NES

# STAGE 2: PRISONERS

After escaping from the beast, Chaykin finds himself prisoner of the alien inhabitants of this world. He awakens in a cage suspended from a chain. With him is the

alien who shot the beast, who is also now a prisoner. Furthermore, the prison seems to be far below the surface of the world. There is no apparent way out.

## AREA 1: CAGED

Push the cage back and forth using the Control Pad to set it in motion. Once the cage swings far enough to the right, the chain will break and the cage will crash down on top of the guard, who loses his laser pistol. Pick up the pistol and follow your ally ally.

### STAGE ORDER

- 1 Escape and get the gun.
- 2 Ally opens the gate.
- 3 A view of the world.
- 4 Shut off power to Area 5.
- 5 Blast door and exit left.
- 6 Ally opens trap door.

## AREA 2: LOCKED OUT

Your alien friend has the know-how to open the locked gate to the right, but it will take time. Your job is to hold off the guards. Create a shield with your gun and blast at the guards. Make sure that you have enough ammunition.

## AREA 4: BLACKOUT

At the bottom of the shaft is a guard with a quake device. You'll have to be faster with your laser pistol, then knock out the power switch behind him on the guard on the floor above. You can't open the door.

## AREA 5: QUICKNESS

A fire germ is the lower, can shoot multiple through three doors to get at you. Run to the hole, drop through, and keep moving to the left, out of the germ's range. At the far left, push the switch to deactivate the power supply.

## AREA 6: SACRIFICE

A double guard is on the higher level, but the hero can just yet. Stand guard while your buddy opens the hatch then jump down the hole. Your ally can't follow. Now time to get out through the window, open the escape.

# STAGE 3: COURAGE

OUT OF THIS WORLD

This area below the prison tests your courage, for there is a jump here that looks impossible. Before you get there, however, you'll have to blast through thick doors and zap an alien guard. When you emerge from the tunnel, you'll find yourself on a wall above the alien city, with only one way to go.

## AREA 1: ENERGIZED

Charge the battery, cross the gap, and proceed while escaping from the prison. If you jump into the electrical field on the far left, you'll have your gun recharged. After blasting out the doors, refill the gun before moving on.

### STAGE ORDER

- 1 Recharge Gun.
- 2 Defeat guard, exit right.
- 3 Run and jump right.
- 4 Blast hole in right wall.

## AREA 3: THE JUMP

Use a gun to blast holes in the wall, then run with speed to the right and jump at the edge of the chasm. Your momentum will carry you across to a lower ledge. Blast a hole in the rock on the right to continue.

# STAGE 4: THE FLOOD

The long cavern beneath the lake has countless dangers, from rock falls to floods to dangling tentacles. You'll have to avoid them all, sometimes twice, to figure out how to climb from danger.

TO A

## AREA 3: BAIT THE BAT

After you blast the door, return to the area below the bat-like creature. Shoot at the bat, then follow it. Jump to the stalactites from the cliff and move left once the bat has been captured.

## AREA 7: DRAINAGE

Stand on the wall at the pedestal-height to reach the second level, then run to the right. Blast the wall to release the flood that runs left. Jump over the holes and keep running until you reach the gray platform at the far left. The water pressure will blow you upward to the first level of the cavern.

### STAGE ORDER

- 1 Drop down the holes.
- 2 Proceed to the right.
- 3 Jump over the spikes.
- 4 Avoid falling rocks.
- 5 Jump over enemies.
- 6 Blast door and return left.

# STAGE 5: WATER & AIR

This area of the alien fortress presents unique problems that could be over the Professor's head. The difficult part might seem to be the flooded caverns. Do you dare to dive into these depths and look for a power conduit? There's plenty of action above water, too. Look for a reunion with your ally after a blistering chase through the tunnels.

## STAGE ORDER

- 1 Go right.
- 2 Go left.
- 3 Shoot lamp chain.
- 4 Destroy guards.
- 5 Swim to the air pocket.
- 6 Shoot power cable.

## TO A

- 7 Defeat the guard.
- 8 Charge gun.
- 9 Shoot lamp wire.
- 10 Drop down the hole.
- 11 Blast wall, then run right.
- 12 Hold off guards until rescue.

## AREA 2: THE LOST GUN

When you run to the right, a guard trips you into a vertical trench. The lost gun goes sliding across the floor. You must kick the guard, race for the gun, then turn and fire as fast as you can.

## AREA 5: BREATH TEST

You'll have to swim all the way to this air hole before swimming to the "big" chamber where the power cable runs. You have just enough air to reach this spot, so don't detour.

## AREA 7: RICOCHET LASER

Set up a mine field in front of the door, then step toward the mine and shoot the gun. Run away back as the door closes, and orange balls will deflect off the closed doors and destroy the guard.

## AREA 9: LIGHTS OUT

The guard is pacing below. The way you can tell is by looking at the reflection in the glass lamps. When the guard is positioned beneath the nearest lamp, shoot it down and it will crush him.

## AREA 11: RESCUE!

Immediately blast the right wall, then run to the right in the last room. Hold off the guards until your ally's arm reaches down for you.

## STAGE 6: HEAVY FIRE

The worst is yet to come. Professor Chaykin is out of the water but into the fire zone with more alien guards and a mechanized tank arena. Your ally will be taken hostage, so you'll have to save him. It won't be easy, and you won't escape unscathed. But in this alien world, the only thing that matters is staying alive.

### AREA 1: RESCUE 2

Using the other ally, locate the number of red and blue eggs. With your ally, be guardless, pick up the guard, then go to the cliff where your ally will throw you across the chasm.

### AREA 13: TANK ARENA

Before you or the Tank, you'll have to learn quickly which buttons to push. If you hit the right sequence, you'll escape the laser fire and wipe out the alien tanks. Blast using the White button.

## IS THIS REALLY THE END?

The final battle seems like a hopeless affair. Bruised and battered, Professor Chaykin can only crawl, hoping to save his faithful, alien pal. Is this the way out or just another dead end?

## TWO GUYS' OPINIONS ON THE LATEST RELEASES

Hand-to-hand combat and sports games play a big part in this issue's list of recent releases. Read on and we'll tell you which ones make the grade.

### THE LEGEND OF THE GHOST LION

Maria is a brave heroine who won't leave the monster slaying and mystery solving to musclebound warriors. Armed with a dagger and plenty of courage, she's ready to take on the creepy creatures of a strange land. Help her find new items, recruit powerful fighting specialists and make the land safe for peaceful beings.

**GEORGE** This game is very similar to several other NES role playing games, most notably the games in the Dragon Warrior series. The biggest difference is that the warrior in this game is a young woman. It's a nice twist and an all around good game for the genre.

**ROB** It is nice that this game gears itself toward a female audience. But, I don't think that it will cause any non-role players to want to play role-playing games.

The legend of the Ghost Lion is a good, solid entry in the role playing category.

### OVERLORD

Planetary conquest is the theme of this popular PC game conversion. The object is to take control of a series of planets and to conquer a computer-controlled planet-ruling rival. Options include sending out colonizing fleets, changing your

planets' economic conditions and building defensive forces. The game is over when only one ruler remains.

**GEORGE** It takes an investment in time to learn the rules and controls of this game. But given time, Overlord can prove to be a lot of fun.

**ROB** Overlord is really two games in one. You have the strategy part when you're establishing colonies on uninhabited planets. Then you have the action-oriented battles against rival forces. Both take some getting used to. The game gets low marks on first impressions but high marks on graphics and concept.

You can establish civilizations and declare war on other planets in the NES translation of Overlord.

### POWER BLADE II

This futuristic sequel takes place in the year 2200, ten years after the destruction of the Brain Master. While peace has been temporarily restored, a weapons company called the Delta Corporation has developed a very powerful cyborg which they are eager to sell to the highest bidder. Your mission is to fight through six stages to Delta HQ and destroy the cyborg before it falls into the wrong hands.

**GEORGE** We've seen a lot of side-view action games for the NES. While this one certainly doesn't offer anything new, it should appeal to fans of the genre.

**ROB** It's got good play control, good graphics and a solid story. What else do you need?

## SPIDER-MAN: RETURN OF THE SINISTER SIX

The Amazing Spider-Man swings into the NES in a big way with a six-stage battle against a group of his most feared enemies. Join the Web-Slinger as he takes on the members of the Sinister Six before they can mount a plan to take over the world. Electro, the Sandman, Mysterio, Hobgoblin, the Vulture and Dr. Octopus are featured.

**GEORGE** It's great to see Spider-Man finally make it to the NES. The graphics are good and the villains are great, but play control is a little rough.

**ROB** You can release what looks like a perfect punch and end up swinging right past your enemy. That gets kind of frustrating, but otherwise it's a fun game.

## WWF WRESTLEMANIA STEEL CAGE CHALLENGE

Ten WWF stars, including Hulk Hogan, "Rowdy" Roddy Piper, the Mountie and the Undertaker fight for the WWF Championship Belt in this latest NES offering. You can pummel your opponents on the traditional mat or climb into the steel cage for a fight to the finish.

**GEORGE** While this game does have a new lineup of wrestlers and the steel cage, it's not much different than the WWF games that have already been released.

**ROB** I like the idea of the steel cage, but it alone is not enough to make the game exciting.

The latest NES WrestleMania game features the standard mat and a steel cage.

## BIONIC COMMANDO

Members of the Dozate Army have kidnapped agent Super Joe. As Red Spencer, it's your job to infiltrate Dozate territory and to find Joe before he gives away too many secrets.

**GEORGE** Bionic Commando for Game Boy is nearly identical to the NES classic, and that's good news. This futuristic adventure has unique play control. Instead of being able to jump, your character can only run and swing on his Bionic Arm. But don't let that put you off. The Arm is very versatile and easy to get used to.

**ROB** It's a top-notch action game.

## DOUBLE DRAGON 3

Get set for more martial arts action on Game Boy. The Lee brothers are in search of the famed Rosetta stones. When they use the power of these precious gems, they'll be able to beat even the toughest opponents.

**GEORGE** The stages of this game are short. Expert players could complete the adventure too quickly.

**ROB** It's not a bad game, but there's really nothing new here. I also think that the characters are small and their movement seems to be limited. If you want good side-view action for Game Boy, my pick this issue would be Bionic Commando.

## ROGER CLEMENS MVP BASEBALL

Following its success on the NES, Roger Clemens MVP Baseball has made its way to the compact video game system. This one or two-player game features on-the-field viewpoints which change to follow the ball.

**GEORGE** Since the action is shown with several different angles, it can be confusing to figure out what's happening in crucial moments. But, after a few innings, it feels more natural.

**ROB** It's a fun game and a good addition to the relatively small Game Boy Baseball library.

Roger Clemens MVP Baseball offers a new perspective on the Great American Pastime.

## TOM & JERRY

Jerry the mouse attempts to squeak by Tom the cat in this fast-paced ten-stager from Hi Tech. While it's similar in style to their NES adventure, the stages and special items for this Game Boy thriller are all new.

**GEORGE** I think that this is the first small character in a big world game for Game Boy. It's a pretty typical side-scroller, but still a lot of fun.

**ROB** Hi Tech scored big with me on their Game Boy version of The Hunt for Red October because a second player could control the opposition. I think that it would have been cool if that same idea was used in this game.

## TRACK & FIELD

The summer games may be over but you can relive your favorite events with the Game Boy translation of this arcade and NES classic.

**GEORGE** I've always liked the various versions of this track & field exercise. It moves from event to event at a good pace.

**ROB** The best thing about this game is variety. It has 11 events and they're all great.

Conduct your own summer games with Track & Field from Kazusa.

## AMAZING TENNIS

The viewpoint comes down to court level for fast-paced tennis action in *Amazing Tennis* from Absolute. You can serve up a drop shot, return with a soft slice, lob the ball to the back line or send it reeling with topspin. Fifteen computer-controlled players challenge you to matches on grass, clay and hard courts.

**GEORGE** I like the big characters and the smooth animation of this game. The digitized voice of the scorekeeper and excellent sound effects also add a sense of realism.

**ROB** The players move very realistically and the low viewpoint pulls you into the action, but I find it tricky to control players accurately on the far side of the court.

Big players and a low angle add a sense of realism to *Amazing Tennis*.

## AXELAY

The 11th Solar System is under attack by ships from the Dark Empire. It's up to you to pilot the *Axelay* fighter through six alien-filled stages and thwart the Dark Empire's plans for domination. The action takes place with head-on and side-scrolling views and there are three difficulty settings to challenge players of different skill levels.

**GEORGE** The graphics for this space-shooter are fantastic. There are a lot of great backgrounds and dozens of cool alien ships. My only complaint is that the head-on view does take some getting used to. I spent a lot of time at the beginning of the game running into obstacles.

**ROB** While I am getting a little tired of space shooters, the new perspective in this game is cool and the digitized voices are very good.

Pilot the *Axelay* to victory over the Dark Empire.

## BART'S NIGHTMARE

Bart Simpson has fallen asleep while doing his homework. You've got to guide him through six surreal stages and help him gather up the pages which have blown out the window and scattered in the wind. A host of Simpsons characters play a part in this dream world including Itchy & Scratchy, Bartman and nightmare versions of Marge and Homer.

**GEORGE** The characters and situations in this adventure are very inventive. I like all of the things that Bart can do, but find him sometimes difficult to control.

**ROB** This game took me by surprise. It has a lot of variety, along with some great characters and fun ideas.

## KING OF THE MONSTERS

Journey to the near future for a one-on-one bout with Super Monsters against a back drop of eight crowded cities. One or two players can choose from four huge crushers: Astro Guy, Geon, Rocky and Beetle Mania. Monsters earn bonus points for destroying the building around them.

**GEORGE** While there's no denying that it's tons of fun to fight giant monsters and crush cities under your feet, *King of the Monsters* doesn't compare to *Street Fighter II* as a one-on-one fighting game. *Street Fighter II* has more and bigger characters, and a lot more fighting moves.

**ROB** *King of the Monsters* has some pretty tough competition in the way of *Street Fighter II* and I don't think that it lives up to those standards.

Four different monsters take turns jumping on cities and each other in *King of the Monsters*.

## ROBOCOP 3

He's part man, part machine and now he's making his debut on the Super NES. *RoboCop* pounds through a dangerous mission over the Splatzer Punks of New Detroit in a high caliber adventure from Ocean. Your mission is to blast through the city streets with as much firepower as you can master and to look for a way to stop the notorious Kanemitsu corporation from taking over the city.

**GEORGE** The graphics and action are great in this game, but I think that even the best players will have a difficult time completing the very tough advanced stages.

**ROB** The most impressive aspects of this game for me are the graphics and music. They're both very appropriate for the *RoboCop* theme.

*RoboCop* mauls his way through his first Super NES adventure.

## SUPER DOUBLE DRAGON

For their Super NES debut, Billy and Jimmy Lee are counting to plots of the past. It seems that the Black Shadow Warriors and Billy's girlfriend, Marian, have both returned so that the Lee brothers can defeat one and save the other. The settings for this seven mission martial arts adventure include the streets of Las Vegas and the span of the Golden Gate Bridge.

**GEORGE** The graphics and variety of moves make this game a lot of fun to play.

**ROB**

In my mind, the Double Dragon games haven't changed much, nor do they vary from other street fighting games. One thing that I think is unique with this game is that every battle is a real challenge, even the fights with the low level goons. You can't just plow through any of the enemies.

*The opinions of Rob and George do not reflect the opinions of Nintendo Power or Nintendo of America, Inc.*

Not to be out done by TurboCop, Billy and Jimmy Lee make their Super NES debut this month as well.

## Ken Griffey Jr.

**K**en Griffey Jr., centerfielder for the Seattle Mariners and MVP of this year's all-star game, takes his game play seriously, on and off the field. When he travels on the team plane, he packs along two ten-inch televisions and a pair of Nintendo game systems, along with a 30-foot extension cord and a couple of multiple-plug outlets. We sent Junior some of the latest baseball tales for the Super NES, then got together with him between games to get a pro's opinions on America's favorite pastime, video style.

# Celebrity Player Profile

**NP:** How long have you been a video gamer?

**JR:** Since the beginning. I played Atari growing up, and we had a computer that we played games on. We got the NES as soon as it came out. I have about six arcade games at home, too. I play one until I get tired of it, or until something new comes along, then I trade it in. I have to keep a pinball game for my mom, and my dad has to have a game where he can just blast everything.

**NP:** What kind of video games do you like best?

**JR:** I like sports games, and occasionally I play some adventure games, but sometimes I don't have enough time because I'm always on the go.

**NP:** How much time do you spend on the road?

**JR:** I travel about 120 days a year, and we have some long flights. I set up the NES—it's a major operation back there! We talk junk and fight each other for the best game. I have a reputation on the plane for running up the score in basketball.

**NP:** Do you have time to play when you're not on the plane?

**JR:** We have the most time during spring training. We're in training for about six weeks, so we play a lot then. We have tournaments, and when you lose, you have to sit out, so I don't like to lose.

**NP:** Do you play against members of other teams?

**JR:** No, that's too hard. Mostly I play

teammates, because we're all there together at the same time. I play against guys in "A" ball, too. There's one guy in A ball who beats me every year.

**NP:** Who's that?

**JR:** My brother Craig.

**NP:** He must be good! What did you think of Super Bases Loaded?

**JR:** I only played it a couple of times, but I had a tough time fielding. When your brother beats you 36 to 6, that's bad. The defensive play was better in Super Batter Up, but all the batters had the same swing. I didn't like Nolan Ryan's Baseball. I like a more realistic kind of game. Extra Innings was cartoonish, too.

**NP:** What's your favorite video game of all time?

**JR:** I like Jordan vs. Bird, mostly because of the slam dunk contest.

**NP:** You made history playing on a pro team with your dad. Did you grow up thinking that you'd play baseball?

**JR:** Yeah, but we didn't stay around the locker room or anything. We'd go to toss. My dad would say, "Get your glove." And we'd go out on the field and play catch.

**NP:** Do you mind being called Junior?

**JR:** No, it doesn't bother me. It's my nickname. Everybody on the team has nicknames. Kevin Mitchell is Huggabear, Dennis Powell is Heavy D, Edgar Martinez is Gar, and we call Calvin Jones Cujo, because his

ears are kind of pinned back.

**NP:** We hear about lots of professional athletes being superstitious. Are you?

**JR:** I'm really superstitious about my stuff. I don't allow other players to put their hands on my glove. I don't spike my helmet when I'm out—it has to protect my head! I got really superstitious this year. I drove my Porsche to the ballpark for the first two weeks of the season, and I didn't get any hits. I put that one in the garage and started driving my Mercedes and I got really hot.

**NP:** Outside of baseball and video games, what interests do you have?

**JR:** Rap. My favorite rap artist is Ice Cube. I got to meet him in Chicago. And last year I did a demo with Kid Sensation called "Listen to the Way I Swing." It has an anti-drug message.

He says that his room is the pinball wizard in the game, but Junior racked up a respectable score on the new Super Mario Bros. arcade pinball game.

## A LOOK INTO THE GAMES OF THE FUTURE

# PAK WATCH

### FINAL FANTASY MYSTIC QUEST SQUARE

You are the knight spoken of in prophecy, the only one who can save the world. All that is to be expected in a Final Fantasy R.P.G., but this game is full of unexpected features that should appeal to more than just die-hard role players. Square designed *Mystic Quest* without

all the tedious monster ambushes found in most R.P.G.s. Monsters appear in the overhead view screens, so you can look for a way around them, or prepare your hero for the battle. Once you're in the battle view, you can control characters or have the game automatically select their attacks. Another cool feature is that you

can do things in the overview world, like bombing doors and chopping trees. The end result is a quick-moving adventure with excellent graphics and sound. The screen text reads well, too, including some light-hearted humor. For this Pak Watcher, *Mystic Quest* pushes all the right buttons.

## JALECO'S KINGDOM

Jaleco has an exciting line-up for this winter. Utopia, a space colony strategy game, will have an option for use with the Super NES Mouse, so it plays just like a PC game. King Arthur's World is a fun action puzzle game for the

Super NES. As in Lemmings, you have specialists, but these specialists are knights, wizards, mobs and various types of soldiers. Your forces will have to march through 30 stages, crossing obstacles and defeating castles. This Pak

Watching berserker ran amok with an early version of the game. Finally, The Young Indiana Jones Chronicles for the NES promises to include lots of action from different episodes of Indy's spectacular career around the world.

## WARP SPEED WITH ACCOLADE

Warp Speed is a Super NES space-fighting simulation with nine basic missions. In each mission, you have to eradicate the aliens in multiple quadrants, while looking for an alien boss

ship. The first-person cockpit view looks out on a galaxy of stars, asteroids, black holes and swarms of ships (16 different styles). The battle plan is up to you. Accolade is also finishing up work on

Universal Soldier, based on the recent Van Damme film. An action game in the Contra style, it features a cool weapon, but lacks the excellent control of that series.

## DESERT STRIKE

ELECTRONIC ARTS

The Super NES version of EA's Desert Strike: Return To The Gulf puts you in command of an Apache attack helicopter during a crisis in the Persian Gulf. The first thing that struck this Pak Watcher was the depth of the graphics. The second thing was a surface to air missile. Flying low to the desert, you must identify and destroy strategic enemy targets while avoiding being shot down. It ain't easy, but then again, it's war.

## NINTENDO CLASSICS

Nintendo's Classic Series games are four of the biggest NES hits of all-time: *The Legend of Zelda*, *Zelda II: The Adventure of Link*, *Punch-Out!!*, and *Metroid*. They are being reissued this Fall, repackaged and, for players who have never played these classics, it's a great opportunity to see why millions of fans consider them some of the best games ever made for the NES, or any system.

## BARTMAN & BASEBALL FROM ACCLAIM

*Bartman Meets Radioactiveman* from Acclaim features Bart as his favorite super hero—himself. The Caped Curambra must rescue fellow super hero, Radioactiveman, but he'll have to pass through some tough stages. *Roger Clemens' MVP Baseball* has great graphics and control. Fans should check it out later this Fall.

*Bartman Meets Radioactiveman*

*Roger Clemens' MVP Baseball*

## ROCKY & BULLWINKLE AND FRIENDS

T-HQ

*Rocky & Bullwinkle and Friends* from T-HQ starts off with a fun scene in Frostbite Falls where a Rocky and Bullwinkle museum is being dedicated. But when it is discovered that two of the security guards have foreign accents (Yes, *dahlink!*), well, you know there's trouble, and you can bet that Boos and Nazis are at the bottom of it. NES and SNES versions are also expected.

## THE INCREDIBLE CRASH DUMMIES

LJN

Spin, Slick, Daryl and Spare Tire, the dummies who will do anything to prove a point, are headed toward the stores later this Fall in their own Game Boy action game from LJN. When your Pak Watchers first saw an

early version of this game at Summer CES, we were impressed. Now, we can safely say that the *Crash Dummies* should be a smash. One of the coolest parts of the game is that you can lose your head and keep on crawling.

## JAPAN WATCH

Kaeru is a big Game Boy R.P.G. from Nintendo that just appeared on the market. Besides the great graphics and humorous text in this game, Kaeru also has elements of adventure games in which you can do more than just wander about in the overworld. Although this game probably won't show up in the U.S., in Japan Kaeru has a lot of potential. Japanese game players have proven to have an insatiable appetite for R.P.G.s, unlike American players who seem to prefer to mix a little action with their adventures.

## GOSSIP GALORE

First up, for the Super NES, Ocean of America is perfecting a knock-down-all-the-dominoes action puzzle called Pushover, starring G.I. Am and featuring special dominoes that float, spin and explode. The Last Vikings from Interplay puts you in control of three rowdy Norsemen, each with a special skill that will help you get through some pretty wild worlds. Wordies for the Super NES is a word puzzle game from Spectrum Holobyte. Expect falling blocks Tetris style, and if you manage to spell either Spectrum or Holobyte, consider yourself an expert. Shadowrun from Data East is in the early works, but the cyberpunk world looks intriguing. Data East also tells us that the final touches are being put on Joe & Mac for the NES. As for Batman Returns, Konami says that work continues. Work also continues on Tradewest's Pro Quarterback, which features a behind-the-quarterback perspective. The idea is to give you the feeling of being close to the field. Dungeon Master from JVC is coming out for the Super NES, probably before the end of the year. Super Shadow of the Beast from IGS is the best-looking version ever of the classic Pygnosis action game. And finally, Skulljigger from American Softworks is a fantasy action game with a twist. The game will be sold with an 80 page, dramatically illustrated comic novel that is filled with tips, clues and secret codes that can be used in the game. There's more here than meets the eye.
